Item: Resolution adopting the City Manager's annual evaluation.

Date: December 7, 2016

SUBJECT AND SUMMARY:

The Council has the responsibility to evaluate the City Manager. The feedback from the Council is critical to ensure the Manager is moving the organization in a direction that meets the goals and work plan set by Council.

RELATIONSHIP TO COUNCIL GOALS:

This supports Council's goal of LEADERSHIP by evaluating the City Manager as prescribed in the agreement.

CALL TO ACTION SCHEDULE:

The time line established in the City Manager's employment contract states the final written review should be completed and delivered to the Employee within 30 days of the review meeting; that review was held November 16, 2016. Call to action schedule: December 16, 2016.

BACKGROUND:

On November 16, 2016, the City Council convened in Executive Session to complete their annual evaluation of the City Manager pursuant to the process previously approved by the Council. During this meeting, Council members discussed the Manager's job performance, with the Manager and among themselves, in seven different categories, including Leadership, Fiscal Management and Budgeting, Service Delivery and Administration, Citizen and Community Relations, Personal and Professional Qualities, City Council Relations, City Work Plan, Goals and Policy Execution.

Council members' scores in each category were totaled and averaged to produce a score in each category. These scores were then compiled and calculated to produce a single Total Overall Score for the Manager's performance over the evaluation period.

A summary of all evaluations was compiled by the City Recorder and presented by Councilor Dennis Roler. The summary was presented to the Council and City Manager. The City Manager's performance was found to exceed expectations in six categories and perform outstanding in one category rated.

Item: Resolution adopting criteria for funding public art.

Date: December 7, 2016

SUBJECT AND SUMMARY:

This resolution provides direction for the City and the Committee on Public Art (CoPA) pertaining to public participation in funding of the arts.

RELATIONSHIP TO COUNCIL GOALS:

This supports Council's goal of **LEADERSHIP** by promoting art in Grants Pass and helping to develop a place with thriving economic, cultural and recreational opportunities.

CALL TO ACTION SCHEDULE:

Call to action schedule: December 7, 2016 or later, at Council's discretion.

BACKGROUND:

The City has supported specific pieces of art in the past such as the "Gateway Mural," the Deer at E and F Streets, the Brady Adams bench and the art work at each City parking lot. The City does not currently have a means of evaluating, prioritizing, selecting or funding art proposals. Adopting criteria will help City Council, CoPA and our citizens.

What brought this to the attention of City Council was a funding request for "The Garden Mural" on a building located at 4th and G streets. CoPA initially heard the request, but wanted to preserve the budget resources that the committee has influence over for art placements in a City parking lot. The requester then approached the Tourism Advisory Committee which forwarded the request to City Council.

Having an established criteria will assure equal treatment of art proposals, and will provide a process for evaluating community art needs along with other City needs through the strategic planning and budgeting processes.

The resolution will adopt criteria to define the purpose and process for considering public participation in art projects. This would not apply to the City when purchasing art to be owned and displayed by the City.

The Council reviewed a proposal for funding criteria and guidelines at the October 19, 2016 Council meeting. The Council directed staff to return the amended version to CoPA for their final review and recommendations. CoPA has completed the task and is recommending adoption of the attached criteria. Adopting the resolution will establish clear criteria for funding public art.

ITEM: 2.b. RESOLUTION ADOPTING CRITERIA FOR FUNDING PUBLIC ART.

Staff Report (continued):

For Council's convenience, Exhibit 1 shows a complete packet for potential artists which includes the application and guidelines.

COST IMPLICATION:

Revenue Source: Funding for public art is a separate process that can be decided through the budget process.

Adopting this resolution which establishes funding for public art proposal criteria will not have a significant financial impact.

ALTERNATIVES:

1. Adopt the resolution adopting Criteria for Funding of Public Art;
 2. Adopt the resolution adopting Criteria for Funding of Public Art with modifications;
 - or
 3. Do not adopt the resolution at this time.
-

RECOMMENDED ACTION:

GUIDELINES FOR ACCEPTANCE OF PUBLIC ART

Modes of Acquisition

The Committee on Public Art (CoPA) uses a wide array of methods to secure public art for Grants Pass – depending upon the particular needs of the project. These include:

- Open Call – An announcement is made soliciting art from the public.
- Roster – Art is solicited from a roster of artist with specialized skills.
- Limited Invitational – Invitations are sent to a limited number of artists.
- Invitational – Invitations are sent to all known artists.
- Donation – Appropriate art pieces are given to the City of Grants Pass.
- Commission of Direct Purchase – In cases where funds are available for specific art projects/pieces, the Committee may pay for a project or purchase a piece that already exists for the public.
- Approval of Application to place Public Art – Direct and voluntary applications are reviewed and recommendations are submitted by CoPA to City Council for approval.

Permanent or Temporary

The CoPA will determine the length of time any public art will be displayed when the work is selected or commissioned.

Records

All selected public art will be cataloged and documented. The records will be maintained under the guidance of the CoPA. A presentation of the public art of Grants Pass will be made to the City Council and public annually.

Selection Criteria

Public art is selected on the basis of many factors. Number 1 factor will determine the final decision, but the following factors will always be assessed by the CoPA in making its selections:

- Artistic merit: Concept, design, craftsmanship
- Context: Architectural, historic, geographic, cultural
- Design: Considers and will improve the space that it will occupy
- Educational potential: Capacity to increase the public's understanding and appreciation of art
- Maintainability: Structural and surface soundness, durability and resistance to weathering, excessive maintenance/repair costs
- Diversity: Artworks from artists of diverse cultural, geographic, racial and gender; of varied scale and media; exploratory and well-established art forms
- Public Safety: Meets appropriate city codes and regulations and has been designed and engineered by the artists in such a way that it will not create injuries while on display; the safety of the proposed design is the responsibility of the artist and not the CoPA or the City of Grants Pass
- Accessibility: No fees or other limits prohibit the public from enjoying the artwork
- Feasibility: The artist's ability to complete the work on time as conceived using the planned materials and within the approved budget
- Originality: Edition of 1 or part of a limited collection
- Artist's proven ability to collaborate with design professionals (on design team opportunities)

Exhibit 1

- Artist's willingness to collaborate with other city endorsed community's in completing the project
- Design and Scale: Considers and will improve the space it will occupy
- Fabrication and Installation Schedules: The proposed art project will include project timeline from approval, fabrication, delivery and installation

Art selected by the CoPA cannot be designed to serve as advertising for an organization or commercial enterprise. This does not preclude appropriate plaques or signs placed in proximity to the art piece recognizing the donor, artist or organization(s) involved in creating or supporting the project.

Funding

For art proposals that will be owned by the City of Grants Pass: City Council will provide full or partial funding with remainder of the funding being raised in partnership with interested parties, stakeholders, and Grants (public or private).

For art proposals that will not be owned by the City (e.g., a mural viewable by the public but on the surface of a privately owned building), funding will be arranged by the person or group requesting approval. Funding sources must be listed on the enclosed application. City Council may decide to provide partial funding for these types of projects.

Annual Guidelines Review

The CoPA recognizes that no guidelines can anticipate all potential issues. Committee reserves the right to amend these guidelines to maintain a clear intention with regard to the City's involvement in public art.

RESOLUTION NO.

Criteria for funding of Public Art Proposals

Purpose

The City desires to create opportunities for the placement of art in public locations. The Council has appointed the Committee on Public Art (CoPA) to promote collaboration between the City, artists, architects, developers and property owners for the purpose of enriching public spaces with art. Adoption of a process to solicit, evaluate, prioritize and support art will enhance the City of Grants Pass. These guidelines are in place to help guide potential investment of public resources that would encourage placement of public art in spaces both publically and privately owned. This process does not apply to art that is to be purchased and owned by the City of Grants Pass.

Program Objectives

1. To encourage the creation of publicly accessible, permanent artworks having artistic merit and community benefit;
2. To encourage collaborative partnerships between artists, arts organizations, communities, and local non-profit groups;
3. To foster community pride through artworks;
4. To strengthen artistic and community outcomes of community-led public art projects; and
5. To reflect the diversity and interests of community artists and arts organizations.

Public Art

Public art covered by these guidelines includes any art placed in accessible, permanent public locations that can be experienced free of charge. This includes art placed on both public and commercial land and building sites where it can be viewed from a public space in the city of Grants Pass. It does not include holiday or seasonal decorations.

Funding

All awards are contingent upon the availability of funds and subject to approval by the City Council. The recommended funding match level for publicly displayed art will be no more than 20% of the project. Funds will be made available at project completion unless an alternate payment plan is approved in writing in advance. Subject to funding availability, CoPA will make an announcement for public art projects seeking funding no more frequently than twice per year.

Recommendation

The committee will prepare and submit a written recommendation to City Council identifying the selected art piece(s), the proposed funding level(s) and any other important issue pertaining to the proposal.

Bid Item Description	Unit	Unit Price	Original Bid Item	Original Bid Item Cost	Total to Date	Amount of Change Order	Total to Date
Bid Item 15. Loose Riprap Class 200	TN	\$80.00	198	\$15,840.00	595.53	\$31,802.40	\$47,642.40

Total Bid Item Change Orders:						\$37,652.40	

- Bid Item 15 – This overage is incidental to the unforeseen conditions encountered in the form of underground debris and trash during structure excavation. This resulted in additional excavation that required additional riprap fill.
- Bid Item 45 and 46 – This overage is incidental to differences between the design alignment, valve placement and geometry of the water lines and the actual field conditions encountered. Due to existing fitting congestion at the desired isolation valve locations, the valve locations had to be moved farther from the bridge abutments. Thus resulting in additional new water line.

CO#5-4. C900 Sewer Service	LS	1	\$1,309.91
TOTAL CHANGE ORDERS			\$76,493.57

- CO#1-1 – Please see Bid Item 45 and 46 above. This CO is incidental to the excavation and backfill at the original valve locations that had to be abandoned due to unforeseen fitting congestion.
- CO#2-1 – This CO was not discussed with ZCS. We have no comment.
- CO#3-1 – This CO is incidental to the unforeseen structural mass of the existing stream crossing. The existing geometry could not be verified prior to demo and ended up being far more substantial than anyone had assumed.
- CO#3-2 – The rat slabs were installed to mitigate unforeseen subgrade stabilization issues associated with unusually difficult groundwater conditions (springing water above the excavation line made it impossible to place and maintain the subgrade under the wall forms during construction)
- CO#4-2 – The additional slurry was directed to mitigate the above-mentioned unforeseen subgrade stabilization issues under and between the weir walls to ensure that the weir walls were soundly locked in and supported against stream flow pressures. We were not confident that this could have been achieved based on actual conditions encountered.
- CO#4-3 – This should have been billed to ZCS Engineering. Please delete from future invoice. This resulted from an incorrect sewer line elevation. We did not feel comfortable asking the City to fund this.

- CO#5-1 – The City has been directed to withhold this from ZCS’s next invoice. This should have been included in the bid package. We did not feel comfortable asking the City to fund this.
- CO#5-2 – This CO is incidental to driven pile deviations. This could have been avoided by altering rebar and field cutting the pile sections to allow rebar to pass through areas of conflict. However, simply thickening the abutment avoided that. The piles were driven to spec tolerances. We just did not want to structurally modify piling and rebar. It would have been a detriment to the final product.
- CO#5-3 – This CO is incidental to extra work associated with the City’s directive to bridge-mount the water lines.
- CO#5-4 - This CO was not discussed with ZCS. We have no comment.

Please let me know if you have any questions or require further information. The total amount of change orders is \$114,145.97 which is under the contingency amount anticipated in the original estimate. This was a very complicated project with extremely challenging site restrictions and a great deal of unforeseen issues that could only be understood after they were encountered. We are pleased with the final product and believe that the CO requests are reasonable.

Item: 2017.

Date: December 7, 2016

SUBJECT AND SUMMARY:

This resolution authorizes the City Manager to enter into a contract with PacificSource and Willamette Dental for dental insurance for calendar year 2017.

RELATIONSHIP TO COUNCIL GOALS:

This supports Council's goal of LEADERSHIP by providing a competitive wage and fringe benefit package while reasonably containing costs.

CALL TO ACTION SCHEDULE:

The contract needs to be approved no later than December 31, 2016. Call to action schedule: December 7, 2016.

BACKGROUND:

PacificSource was originally awarded the bid for dental coverage in 2005 for all eligible employees, excluding those represented by Teamsters No. 223. The proposed premium renewal from PacificSource for the 2017 dental plan is 0%, with a premium of \$110.32 a month. Presently, 149 employees have selected this plan. The City's Agent of Record recommends the City continue with PacificSource.

The City will continue to offer Willamette Dental, a policy that restricts use to Willamette Dental Center's specific dentists but provides orthodontia services. Presently, 16 employees have selected this plan. Willamette Dental initially offered renewal at a 4.16% increase. The City's Agent of Record negotiated a rate hold for the third year with a slight co-payment increase. Office visit co-pays will increase from \$8 per visit to \$10, and extractions will increase from a co-payment of \$40 to \$50. Willamette Dental has maintained the same premium rate, with a 0% increase in premiums, the 2017 rate will remain at \$98.55 a month. This is the third consecutive year the City will pay this premium rate.

COST IMPLICATION:

Revenue Source: Affected department's personnel budgets.

With the premiums remaining static for 2017, the City's share (92.5%) of the insurance monthly premiums for 2017 will be approximately \$18,152. The City's share of total health insurance premiums, including dental coverage, was budgeted to increase 10%. The total renewal for medical, prescription, vision and dental will remain static for 2017.

Item: Resolution authorizing the City Manager to contract for medical, prescription and vision insurance for calendar year 2017.

Date: December 7, 2016

SUBJECT AND SUMMARY:

This resolution authorizes the City Manager to enter into a contract with PacificSource for medical, prescription and vision insurance for calendar year 2017.

RELATIONSHIP TO COUNCIL GOALS:

This supports Council's goal of **LEADERSHIP** by providing a competitive wage and fringe benefit package while reasonably containing costs.

CALL TO ACTION SCHEDULE:

Call to action schedule: The contract needs to be approved no later than December 31, 2016. Call to action schedule: December 7, 2016.

BACKGROUND:

Labor agreements with Grants Pass Police Association, International Association of Firefighters #3564, Grants Pass Employees Association, and the Personnel Rules, Regulations and Policies for non-bargaining employees, as well as the Federal government's Affordable Care Act define an obligation to provide health insurance coverage.

In August, Human Resources reconvened the Insurance Committee, consisting of representatives from all employee groups covered under the City's insurance. This is the Insurance Committee's 12th consecutive year meeting to discuss medical coverages and costs. Through this Committee, representatives are educated on administrative costs, large claim pooling, trending, the Affordable Care Act and other provisions of the law that impact benefits and premiums.

A major factor and concern in insurance costs is claims experience, which have been favorable the past two years. For the period of October 2014 through September 2015, there was an average pay ratio of approximately 68%. For the period of October 2015 through September 2016 the average pay ratio was approximately 67%. The City's Agent of Record began discussing renewal with PacificSource, and due to our status as a large group and our current year claims experience, our Agent negotiated a rate hold for 2017. This will be the City's third year at the current premiums.

ITEM: 2.e. RESOLUTION AUTHORIZING THE CITY MANAGER TO CONTRACT FOR MEDICAL, PRESCRIPTION AND VISION INSURANCE FOR CALENDAR YEAR 2017.

Staff Report (continued):

The City continues to offer two health plan options, with one option being a higher deductible and higher co-payment plan with an HRA VEBA contribution. The majority of City employees have chosen the higher deductible plan. All employees covered by PacificSource pay 7.5% of the total premium for medical, prescription and vision coverage.

All employee groups have contract language that provides for a greater cost sharing should premiums increase more than 10%. With a 0% increase, employees will be paying 7.5% of the premium. Grants Pass Police Association added alternative care coverage in 2014 with all members paying 100% of this additional benefit at solely their cost. They have voted to terminate the alternative care coverage in 2017.

The Insurance Committee took into consideration that PacificSource is a long-term provider of medical, prescription and vision benefits to the City. In years past, when our utilization has been very high, they continued to negotiate a fair rate based on the market. In 2013, the employees agreed to move to a higher deductible, higher out-of-pocket, and higher co-payment plan while maintaining the HRA VEBA rate that had been in place since 2008. With the medical premium and the HRA VEBA contribution remaining static, there is no increase to the City.

COST IMPLICATION:

Revenue Source: Affected department's personnel budgets.

2017	Monthly Premium Costs	
	500+20 Plan	1000+25 Plan
Medical, RX and Vision	1486.98	1364.28
Employer HRA VEBA Contribution	0.00	234.00
Employer Share of Premium (92.5%)	1,375.46	1,261.96
Employee Share of Premium (7.5%)	111.52	102.32
Total City Contribution	1,375.46	1,495.96

ALTERNATIVES:

1. Council can choose to contract with PacificSource for medical, prescription and vision as recommended by our Agent of Record; or
2. Council can direct staff to seek alternative insurance coverage.

RECOMMENDED ACTION:

Recognizing that the City has contractual agreements for insurance, that continuity of coverage is important, and that the renewal rate is below budget, staff recommends the Council authorize the City Manager to enter into a contract with PacificSource as proposed for medical, prescription and vision insurance coverage for Grants Pass Employees Association, International Association of Firefighters #3564, Grants Pass Police Association and the non-bargaining employees of the City of Grants Pass.

POTENTIAL MOTION:

I move to authorize the City Manager to enter into a contract with PacificSource for medical, prescription and vision coverage as proposed.

RESOLUTION NO.

**A RESOLUTION OF THE COUNCIL OF THE CITY OF GRANTS PASS
AUTHORIZING THE CITY MANAGER TO CONTRACT FOR MEDICAL,
PRESCRIPTION AND VISION INSURANCE FOR CALENDAR YEAR 2017.**

WHEREAS:

1. The collective bargaining agreements with the Grants Pass Employee Association, Grants Pass Police Association and International Association of Firefighters #3564, and the Personnel Rules, Regulations and Policies provide for the provision of health care; and
2. All non-bargaining employees may be treated in a manner similar to those with union representation; and
3. The City has established and continues to utilize an Insurance Committee to evaluate medical insurance coverage and alternatives; and
4. The combined cost of the benefit plans for medical, prescription, and vision insurance is quoted to increase 0% therefore continuing at the 2016 rate for 2017.
5. The City Council desires to complete a contract with PacificSource to meet the statutory and contractual obligations for medical insurance while simultaneously offering a higher deductible plan coupled with a Health Reimbursement Account, as a long-term strategy to contain costs.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Grants Pass the City Manager is authorized to take necessary actions to renew medical insurance with PacificSource as follows: All eligible employees, excluding Teamster-represented positions, shall have the opportunity to select from a dual-choice package, the 500+20 plan or the 1000+25 plan as identified in Exhibit "A" with a Health Reimbursement Account (HRA VEBA) paid by the City in the monthly amount of \$234 for those employees who select the 1000+25 plan.

EFFECTIVE DATE of this Resolution shall be immediate upon its passage by the City Council and approval by the Mayor.

Item: Resolution authorizing the City Manager to contract for life insurance for calendar year 2017.

Date: December 7, 2016

SUBJECT AND SUMMARY:

This resolution authorizes the City Manager to enter into a contract with The Standard for life insurance, which includes accidental death and dismemberment and long term disability coverage, for calendar year 2017.

RELATIONSHIP TO COUNCIL GOALS:

This supports Council's goal of **LEADERSHIP** by providing a competitive wage and fringe benefit package while reasonably containing costs.

CALL TO ACTION SCHEDULE:

Call to action schedule: The contract needs to be approved no later than December 31, 2016. Call to action schedule: December 7, 2016.

BACKGROUND:

Labor agreements with Grants Pass Police Association, International Association of Firefighters #3564, Grants Pass Employee Association, Teamsters Local No. 223 and the Personnel Rules, Regulations and Policies for non-bargaining employees, provide for life insurance coverage.

In August, Human Resources reconvened the Insurance Committee, consisting of representatives from all employee groups covered under the City's insurance. This is the Insurance Committee's 12th consecutive year meeting to discuss medical and health coverages and costs. The Committee requested our Agent of Record seek proposals for life insurance. Four companies responded, including the City's current provider, Mutual of Omaha. The lowest bidding company did not offer benefits to match the City's current coverages. Mutual of Omaha proposed an increase of 18.57%. The Standard proposed equal benefits at approximately 7% less than Mutual of Omaha's 2016 rates and approximately 27% below Mutual of Omaha's renewal. The City's Agent of Record recommended The Standard insurance company.

COST IMPLICATION:

Revenue Source: Affected department's personnel budgets. The Standard's annual premium for life, accidental death and dismemberment and long term disability coverage for all full time employees is \$61,647.

ITEM: 2.f. RESOLUTION AUTHORIZING THE CITY MANAGER TO CONTRACT FOR LIFE INSURANCE FOR CALENDAR YEAR 2017.

ALTERNATIVES:

1. Council can choose to contract with The Standard as recommended by our Agent of Record; or
 2. Council can direct staff to seek alternative life insurance coverage.

Resolution authorizing an Intergovernmental Agreement between Illinois Valley Community Response Team DBA: Illinois Valley Community Development Organization (IVCDO).

Date: December 7, 2016

SUBJECT AND SUMMARY:

An Economic Development Funds agreement with the Illinois Valley 2010 Community response Team; DBA: Illinois Valley Community Development Organization (IVCDO) will allow them to administer our loan program. It would allow access to \$200,000 from the City of Grants Pass Micro Enterprise Loan Fund to make loans to startups and expansion of businesses in Grants Pass. These loans would be secured by equipment or other sufficient collateral. The maximum loan amount would be no greater than \$25,000.00 per business.

RELATIONSHIP TO COUNCIL GOALS:

This supports the Council's goal of **ENCOURAGING ECONOMIC OPPORTUNITIES** by supporting the Grants Pass business community.

CALL TO ACTION SCHEDULE:

Call to action schedule: At Council's discretion.

BACKGROUND:

The City of Grants Pass has a Micro Enterprise Loan Fund which has been underutilized. Currently, the Micro Enterprise Loan Program allows entrepreneurs to borrow up to \$10,000 or as little as \$300 to start or run their businesses. The loan cannot be for more than 5 years or less than 6 months. The City has not issued any micro enterprise loans to date.

IVCDO has been successfully implementing a micro enterprise loan program for several years in the Illinois Valley and in Josephine County. The maximum lending amount is \$25,000 per business and the borrower must stay in communication with the Small Business Development Center (SBDC) for the duration of the loan agreement to ensure success and progress. When a business within the City of Grants Pass is successfully identified and vetted with IVCDO for a lending need, the City of Grants Pass would transfer funds to a separate account that IVCDO would then access for the potential borrower. This would enable IVCDO to make economic development loans on behalf of the City.

ITEM: 2.g. RESOLUTION AUTHORIZING AN INTERGOVERNMENTAL AGREEMENT BETWEEN ILLINOIS VALLEY COMMUNITY RESPONSE TEAM DBA : ILLINOIS VALLEY COMMUNITY DEVELOPMENT

ORGANIZATION (IVCDO).

Staff Report (continued):

SBDC has been successful in identifying businesses that need funding to take their business to the next level. SBDC works closely with IVCDO. Since its inception, 108 loans have been made in the amount of \$1,163,500 by IVCDO. The current default rate on loan administered by IVCDO is around 4%, which is a very low rate for these kinds of loans.

The City can benefit from having IVCDO make small business loans. Partnering with IVCDO's successful program will spur economic development by assisting businesses in the City.

This agreement would remain open ended and may be terminated by either the City of Grants Pass or IVCDO by written request within a 90 day period.

COST IMPLICATION:

Revenue Source: Economic Development Revolving Loan Funds in the amount of \$200,000.00

ALTERNATIVES:

1. Approve the intergovernmental agreement utilizing IVCDO for loan administration;
2. Approve the intergovernmental agreement with additional recommendations; or
3. Elect a new Enterprise Loan Board and keep the funds for in-house administration.

RECOMMENDED ACTION:

It is recommended that Council approve the IGA as proposed.

POTENTIAL MOTION:

I move to approve the intergovernmental agreement with Illinois Valley Community Response Team DBA: Illinois Valley Community Development Organization (IVCDO).

Resolution amending the comprehensive
fee schedule for annual cost of living
Item: index adjustments.

Date: December 7, 2016

SUBJECT AND SUMMARY:

This resolution amends the comprehensive fee schedule effective January 1, 2017, to acknowledge CPI index based annual cost of living index adjustments.

RELATIONSHIP TO COUNCIL GOALS:

This supports Council's goal of LEADERSHIP by effectively managing and communicating the fees and charges of the City, and by maintaining the fiscal health of the City.

CALL TO ACTION SCHEDULE:

This action is a housekeeping measure, documenting the CPI changes required each January 1st by various other ordinances and resolutions. Call to action schedule: December 7, 2016.

BACKGROUND:

Council has set fees and rates for services through a wide variety of resolutions and ordinances. Certain ordinances were approved by Council to ensure fees and rates for utility and other services are annually adjusted by the CPI-U index in order for the fee revenue to keep up with inflation over time.

These annual changes happen each January 1st, based on the average monthly CPI-U index for the period of November to October in the previous year. Automatic inflation adjustments are applied to all the main City utility user rates, SDCs, and many (but not all) of the planning and engineering fees. This year's adjustment based on the published monthly CPI-U index changes was 1.05%. There are no changes to the fees in this schedule other than the required CPI related changes.

It is also important for Council to review and acknowledge this fee schedule on an annual basis before budget projections are developed for the coming year. Please note this fee schedule will be automatically updated by any other Council resolutions or ordinances that implement or change fees on January 1, 2017 or later throughout the year.

COST IMPLICATION:

None.

ITEM: 2.h. RESOLUTION AMENDING THE COMPREHENSIVE FEE SCHEDULE
FOR ANNUAL COST OF LIVING INDEX ADJUSTMENTS.

Staff Report (continued):

ALTERNATIVES:

Council has the discretion to amend most of the fees in the comprehensive fee schedule. Without applying CPI changes to certain fees, the cost of providing the services will likely grow higher than the fee for the service over time if the fees are not periodically reviewed and changed.

RECOMMENDED ACTION:

It is recommended the Council adopt the resolution amending the comprehensive fee schedule to acknowledge the annual cost of living index adjustments.

POTENTIAL MOTION:

I move to approve the resolution to amend the comprehensive fee schedule.

RESOLUTION NO.

A RESOLUTION OF THE COUNCIL OF THE CITY OF GRANTS PASS AMENDING THE COMPREHENSIVE FEE SCHEDULE FOR ANNUAL COST OF LIVING ADJUSTMENTS.

WHEREAS:

1. The City of Grants Pass finds it necessary and reasonable to adopt fees in order to provide City services; and
2. The City Council has the authority to establish, amend, and update fees and charges imposed by the City; and
3. The City has previously adopted many fees and charges through: 1) Changes to the City Code, 2) through Ordinances, 3) by various Resolutions, 4) other means; and
4. It should be understood that these fees and charges are an important part of the resources required for the operation of the City, and in many cases do not cover the costs involved; and
5. Staff has reviewed City fees and charges imposed by the City and has compiled these fees and charges into a comprehensive fee schedule; and
6. It is desirable to improve the City's ability to communicate its fees and charges to its citizens and customers through a consolidated schedule; and
7. Council has previously reviewed the rates and implemented ordinances and resolutions for certain rates be indexed to CPI and changed on an annual basis; and
8. The City will be better able to manage and track the City's fees and charges through the use of a comprehensive fee schedule with regular amendments as needed.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Grants Pass:

Section 1. The comprehensive fee schedule is amended for the annual automatic changes to rates, including the CPI based adjustments, as detailed in Exhibit 'A'.

Section 2. The amended fees and charges included in the comprehensive fee schedule are effective for all billings and charges after December 31, 2016.

EFFECTIVE DATE of this Resolution shall be immediate upon its passage by the City Council and approval by the Mayor.

ADOPTED by the Council of the City of Grants Pass, Oregon, in regular session this 7th day of December 2016.

SUBMITTED to and _____ by the Mayor of the City of Grants Pass, Oregon, this ____ day of December 2016 to be effective on the date indicated as adopted by the City Council.

ITEM: 2.j. MOTION ACKNOWLEDGING RECEIPT OF THE MONTHLY AND QUARTERLY FINANCIAL REPORTS FOR THE QUARTER ENDING JUNE 2016.

CITY OF GRANTS PASS
MONTHLY & QUARTERLY FINANCIAL REPORT
June 2016 and Fiscal 2016 Summary
Discussion & Analysis

As June marks the end of a quarter and the end of the fiscal year, attached in this month's financial report package are the City's monthly and quarterly reports as follows:

Quarterly Reports:

- Monthly Financial Report for June 2016 – also shows beginning and ending budgetary fund balances
- Expanded Year-To-Date Revenue Summary by Program/Activity
- Expanded Year-To-Date Expenditure Summary by Program/Activity
- Quarterly Capital Fund and Capital Project Report
- Investment Summary

Changes to the format of the monthly financial reports: This fiscal year, the monthly financial report summaries were changed slightly to break out "transfers" from the main revenue and expenditure summary lines. This allows a more clear view of actual operational revenues and expenditures compared to budget in a short easier to read format that covers all funds of the City. Transfers between operating funds and capital project funds need to be legally recorded as budgetary revenues and expenditures for each fund, but are only generally processed once or twice throughout the fiscal year.

We have a number of positive developments and budget to actual differences that deserve to be highlighted in this fiscal 2016 report. Council's Strategic Plan objective "Ensure efficiency and effectiveness in City operations" is well reflected in actual results in this report. A fiscally conservative budget along with spending controls throughout the year has led to most major departments being significantly under expenditure budgets and higher fund balances to start FY'17 than was estimated during last spring's annual budget process. In addition, General Fund revenues in total were once again right on track with budget (actual came in at 104.4% of budget) and the general fund and most other utility and internal service funds are starting next year with higher fund balances than budgeted due to positive differences between budgeted and actual revenues and expenditures.

REVENUE - ACTUAL TO BUDGET HIGHLIGHTS

General Fund revenues in total were just above budget at 104.4% of the total General Fund budgeted revenues. Most categories of General Fund revenues were either right on budget or slightly above budget. Total property taxes which are all dedicated to Public Safety in the General Fund came in at 102.2% of budget thanks mostly to a

slightly higher than budgeted assessed value increase. While property taxes are becoming harder to forecast due to smaller differences between assessed and market values, General Fund revenues in total can be expected to remain relatively stable as long as the local option property tax levy remains in place.

Most General Fund revenues come from either property taxes or franchise taxes. Franchise (or Right of Way) taxes are a percentage of utility bills (generally 5%) from both the City's utilities and private utilities that operate in the City right-of-way. The total use of major utilities such as electricity or natural gas doesn't change significantly from year to year. However, utility rates can sometimes change significantly from year to year and are the primary factor in right of way tax revenue forecasts. In Fiscal 2016, total General Support revenues (shared resources among General Fund operating divisions mostly made up of franchise taxes and State revenue sharing) came in at 102.5% of budgeted revenues for the fiscal year.

For a fourth year, Grants Pass continued to see relatively strong new building activity in both commercial and residential development as compared to the more challenging years during the economic and housing downturn between 2008 and 2012. Development sensitive revenues in divisions such as Building, Planning, and SDCs were significantly above budgets for the fiscal year.

Revenues in the Building Division are a key indicator of the level of property development happening in the City. Fiscal 2016 showed an extremely strong amount of activity in building compared to budget. For the full fiscal year, the Building Division achieved 211.4% of its total revenue budget. And there is still a fair amount of activity in the pipeline that will carry over to FY'17. Activity in the first half of the fiscal year was partially spurred on by a temporary rollback in transportation and parks system development charges which ended on June 30, 2015. Planning revenues came in at 213.9% of budget for the year. The System Development Charge (SDC) revenues, charges designed for new developments to cover their impact on growth in the system, generally came in significantly above levels seen in most recent years. SDC revenues can be found in the expanded quarterly revenue report under the category of "charges for services" revenues in the various capital project or SDC funds.

Most of the utility fee service charge revenues came in close to budgeted amounts. The Water Utility service charge revenue came in at 92.7% of budget, partially due to an aggressive revenue target for FY'16. While Water revenues for the operating fund came in slightly under budget, the expenditures for the Water operating fund were also under budget and the net performance for the Water operations fund was very close to being right on track this year.

The charges for services in the Wastewater utility fund came in at 103.9% of budget, while the charges for services for the Transportation utility fee came in at 99.7% of budget. Gas tax revenues, a portion of the state's gas tax that is shared with the City, came in at 102.9% of budget for FY'16.

EXPENDITURES – ACTUAL TO BUDGET HIGHLIGHTS

Budgetary “savings” can be defined as the total net budgetary difference between actual and budgeted revenues and expenditures. Savings (if any) are important because they are factored into the budget preparation for the next fiscal year once they can be measured precisely (at the end of each fiscal year). Part of the expenditure savings expected in FY’16 were factored into the FY’17 budget already because they were expected, but the actual total savings in excess of the amount budgeted are present in most of the City’s operational funds and can now be factored into resources available for future needs. These resources can be used either in budget adjustments in the current year or can be factored into future budget periods, however typically they are carried over to the next year and used to address the highest priority capital project or short-term needs identified and prioritized for the next fiscal year in the annual city goal setting process.

Public Safety’s budgetary savings in FY’16 and the overall savings for the General Fund will help play a major role in the Public Safety’s need for other General Fund resources during the period of the current Public Safety levy. The current Public Safety levy period began in FY’15 and covers a four-year period. In November of 2013, the levy was approved by vote at a rate of \$1.79 per \$1,000 of assessed value for four more years and this is the same levy rate used for the previous 5 fiscal years. And the City continues its long-standing practice of dedicating all property taxes to Public Safety.

In developing longer-term projections for Public Safety levy needs and longer-term projections for changes to the overall General Fund balance, it has been assumed that the departments in total would end each year approximately 6% under the expenditure budgets. General Fund program expenditures are largely personnel related expenditures, and there are usually some temporary staffing vacancies during a typical year. Essentially, the budget shows what the total expenditures would be in a given year if the department operated at 100% of capacity for the whole year. But on average, the General Fund typically comes in 6% under budget in total for all General Fund programs combined. Public Safety expenditures in FY’16 were 7.9% under budget which was one of the largest contributors to a higher General Fund balance in the year. Because of these higher than typical savings, Public Safety did not need to use any general fund discretionary (or “general support”) revenues to provide Public Safety operations for Fiscal 2016. The rest of the General Fund departments combined turned in an expenditure savings of 9.3%, also slightly higher than average, leading to a slightly higher General Fund balance compared to last year.

Because revenues were slightly over budget and expenditure savings came in slightly greater than forecast, the General Fund’s unrestricted budgetary fund balance actually increased about \$405,000 for the year rather than the slight decline that was forecast in the budget for the year. In the financial projection developed for the next Public Safety Levy period, it was projected that the General Fund balance would decrease slightly in FY’16 and every year of the next levy period due to limited growth in revenues and inflationary pressures. This was planned due to the desire to keep the property tax rate the same for the next period and because of the slight excess financial capacity of the General Fund balance compared to financial policy target ranges. After factoring in the

typical expenditure savings rates each year, by the end of this levy period the General Fund is now on track to end up in the high end of the target fund balance policy range. Savings seen in the last two fiscal years above forecast will help lessen the potential of the General Fund being out of compliance with its financial policies at the end of the current levy period. Please also see the “General Fund 5-year Forecast” text and chart in the Fund Balance section on the following pages.

Budgetary savings and conservative spending can also be seen in all of the City’s utility funds. Wastewater operations in total came in under budget at 94.2% of budgeted expenditures while the Water Utility operating fund came in at 94.8% of total budgeted expenditures. The Street Utility’s amount under budget on the expenditure side was 5.6% of budgeted expenditures (excluding transfers to transportation capital projects). These savings will be moved into the highest priority utility capital projects in the next budget cycle by transfers from operating funds into capital project funds. Most of the Capital Construction and Capital Project funds are beginning FY’17 with higher than expected fund balances but that is typically due to the timing of project expenditures compared to budget and not significant budget to actual differences for the projects.

FUND BALANCES

Ending fund balances are always an important statistic for City financial reports and we’re pleased to announce the General Fund is starting Fiscal 2017 with a fund balance approximately \$1.8 million higher than budgeted for the start of Fiscal 2017. The General Fund contains the majority of the City’s non-utility operating programs including the largest operating department, Public Safety. The budgetary balance for the General Fund, including all General Fund programs except restricted resources from the Building and Tourism departments, was \$12,352,732. This equates to approximately 44.1% of total General Fund expenditures for Fiscal 2017 and is slightly above the City’s financial policy range of 30% to 40% of annual expenditures. There are some significant one-time general fund capital project transfers coming up in the next two years that will likely bring the General Fund balance back within the policy range. It’s great news that the General Fund has this financial flexibility at a time when there are some significant project needs ahead.

General Fund departments with the largest budgetary savings during the year by dollar amount included Public Safety, Planning, and Parks Maintenance largely due to personnel vacancies at different points in the year. The total General Fund balance increased slightly during the year as revenues were slightly above budget and expenditure savings were slightly higher than average throughout operating departments in the General Fund. Due to a number of factors mentioned below under the graph of the General Fund balance, the General Fund is better positioned today to maintain a relatively consistent fund balance through fiscal 2018 as opposed to a few years ago. However, the General Fund still doesn’t have the financial flexibility to add new ongoing operational services without a new ongoing revenue source to keep the budget balanced well into the future.

Included on the previous page is a report that compares the actual ending fund balances for FY'16 to the fund balance amounts that each fund had budgeted to begin the next fiscal year. Most funds are beginning FY'17 with fund balances slightly larger than budgeted.

The City's utility funds (Water, Wastewater, Transportation) maintain a contingency (fund balance) carryover equivalent to 25% of operational expenditures and the remainder of the resources available each year are budgeted to be transferred to the Utility's capital project fund. This allows the maximum amount of resources to be transferred to Water capital projects and Wastewater capital projects in the next budget period and helps in dedicating additional internal revenue sources to the long list of necessary infrastructure projects such as the new Water Treatment Plant, the Wastewater Plant expansion, and various high priority street capital projects.

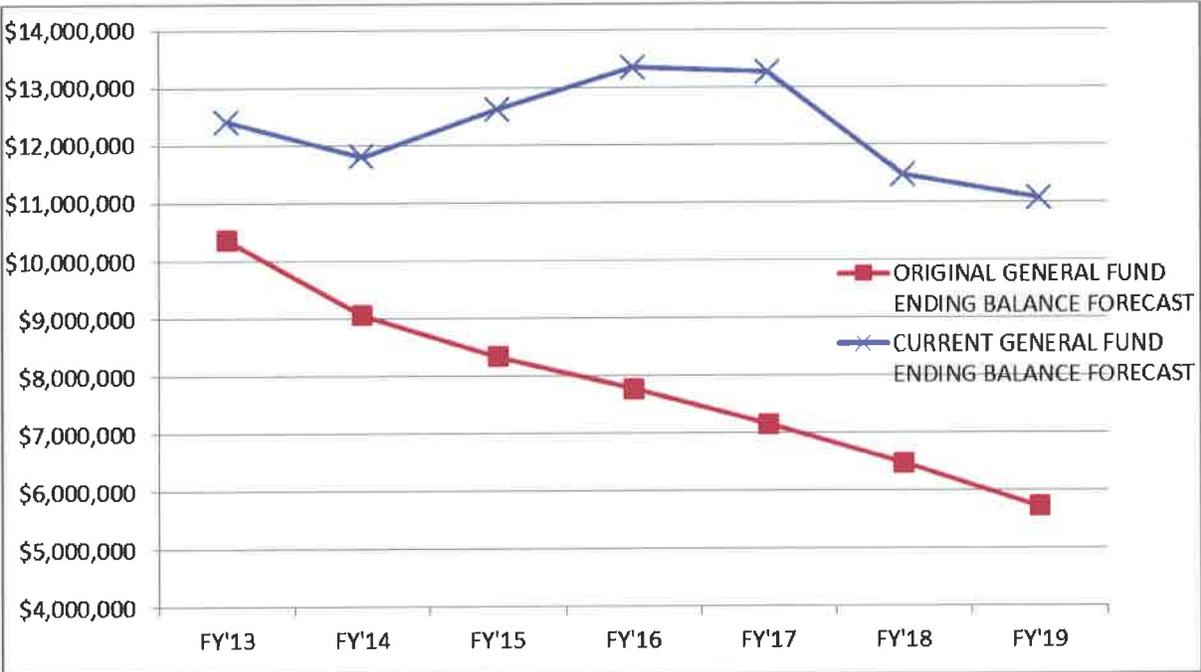

On the next page, the column that shows the **Policy or Target %** numbers show the target fund balance policy that has been written into the City's financial policies for certain funds. For the second year in a row, all funds meet at least their minimum fund balance policy. And most have balances slightly in excess of target ranges which will allow additional resources to be transferred to one-time needs such as capital projects in the next budget process. One of the larger fund balance standouts is the Engineering Fund, and staff has already taken action on reducing the internal engineering direct charges to operating divisions to work down the excess fund balance in this fund. Engineering revenues were significantly above budget in the last year due largely to the higher amount of capital projects going on across the City utility systems.

General Fund 5-year forecast:

In the spring of 2013 a longer-term revenue, expenditure, and fund balance forecast was created for the General Fund under the assumption of continuing the Public Safety levy at the same rate of \$1.79 for a maximum term of 5 years. Since then, the measure for the next levy was created and approved by voters for four years at the same rate and the following major factors have impacted the path of the current forecast compared to the original forecast:

- Actual closing fund balance for FY'13, FY'14, FY'15 and FY'16 (slightly higher savings amounts than forecast in each year)
- Revised property tax forecast and 2014 approved annexation
- Higher amounts of residential and commercial construction activities
- PERS law changes and rate changes implemented in 2013/2014 (deferred some rate increases to future years)
- Other factors impacting the FY'17 Budget and future budgets

The original and revised General Fund balance forecast is shown below based on the most recent information available.

Continued conservative spending will be the key to maintaining a fund balance within our financial policies, as future General Fund revenue growth is expected to be in the 1-2% range per year in the near-term. While many properties still have an assessed value under the property’s market value, property tax revenue growth will be to some extent limited by further growth in market values and the levels of development activity.

Projections originally developed in 2013 to forecast the current Public Safety levy period called for revenue growth of 2.2% per year for property taxes (including new construction) and 1% growth per year for other Public Safety revenues. In future years after FY'17 the projection now assumes property tax growth of 2.0% per year. On the expenditure side, the General Fund’s personnel expenditures are now projected to grow 3.0% per year on average (largely due to future changes in PERS rates) and other expenditures are expected to grow 2.0% per year to account for both inflation and a minimal amount of growth in the City.

LONG-TERM PLANNING FOR UTILITY INFRASTRUCTURE

While all of the utility operational funds meet the minimum financial policy guidelines in place today, resources available to build the utility infrastructure projects on the horizon in the intermediate term are insufficient to build the projects without a significant amount of external borrowing. The shortfall in resources available to complete pending high priority utility infrastructure projects will continue to be an important discussion for the City as it has been in recent years. The expansion of the Wastewater Plant in three phases began in FY'15 and the complete replacement of the aging Water Plant is in the early planning phases. The more borrowing that is required for these major infrastructure projects, the more interest expenses will add to project costs and user

rates in the future. A large performance audit and strategic planning project for Water and Wastewater was completed in October of 2015 to help ensure these major capital projects and utility operations move forward as efficiently and effectively as possible. Water and Wastewater utility rates will need an in depth review over the next year to accommodate the bond debt service that will result from completing these major projects and a phasing in of rate increases over a multi-year period will likely be the end result. A rate study for all the utilities was launched in early fiscal 2017.

The Wastewater Plant expansion is set for three phases, and the Wastewater Fund has recently completed phase one without borrowing. However, phase two which is scheduled to begin in 2017 is almost \$17 million and will require borrowing via a bond issue. Phase three is another \$12+ million and could begin approximately four years after phase two, depending on the growth in Wastewater Utility users. The more we can adjust rates to prepare for the costs and long-term debt requirements of these projects, the more we can limit the long-term costs of borrowing.

The planned new Water Treatment Plant has a master plan showing the ultimate long-term capacity and cost would be a plant with an initial cost of as much as \$56 million. However, staff will be reviewing options for building a slightly smaller capacity plant designed to meet short-term and intermediate-term water demands with the room to expand capacity in the future. Over the next year the site for the new water plant will be determined and the procurement process for the design and construction of the new plant will begin after the phase 2 wastewater expansion is nearing completion in a couple years. The new water plant capital project will also require a significant bond issue and many of the available water capital project resources are being directed to this major plant project in order to limit the eventual size of the borrowing.

BUDGET ADJUSTMENTS AND FINANCIAL CLOSING PROCESS FOR FY'16

There was only one legal budget adjustment processed during the fiscal year. Due to the higher than expected level of development activity, there was one budget adjustment approved in the final quarter of the fiscal year for the Building division. The Building Division only has two full time inspectors and contracts for electrical and plumbing inspections as needed based on the level of development activity. This budget adjustment increased the contractual services expenditure budget in the Building division by \$25,000 to accommodate the higher level of inspections needing to be performed under contract this year.

The end of fiscal year financial closing process is a time intensive process that ensures the financial reports as of June 30th are an accurate financial snapshot in time. This process takes close to 3 months to finalize, and requires a number of expense and revenue accruals. Any goods or services that have been received before June 30th but not yet paid for, any employee hours worked before June 30th but not yet been paid via paychecks, and many types of revenue sources due to the City as of June 30th but not yet been paid have to be recorded in our financial records both for budgetary reporting and annual audit reporting.

For governmental funds anything that is due to the City on June 30th and received by the end of August can be recorded as budgetary revenue for the year, while accounting for Enterprise Funds is similar to private sector accounting and private sector financial accrual methods. This is the main reason the unaudited financial reports are typically not complete until late September or early October each year, followed by the annual financial audit before the final report is released in December.

This report, and all other monthly and quarterly financial summaries issued throughout the year are presented on a budgetary reporting basis. The CAFR (Comprehensive Annual Financial Report) audit report issued in December shows results both on a budgetary basis and also on a basis of accounting as required by Governmental Accounting Standards for the annual audit report. This year-end budgetary report is being released at the end of November since the bulk of the financial audit was complete as of mid-November.

The City's annual financial audit will be fully completed during November and December, and the Comprehensive Annual Financial Report (CAFR) will be issued in December. The due date for the City's full audit report is December 31st each year and the report will once again be submitted to the GFOA's financial reporting award program. The City of Grants Pass has won the Government Finance Officers Association Certificate of Achievement for Excellence in Financial Reporting for 34 consecutive fiscal years, the latest award being given for the 2014-2015 CAFR. The Certificate of Achievement is a prestigious award recognizing conformance with the highest standards for preparation of state and local government financial reports.

We hope this discussion and analysis provided some insight into the City financial activities. Should you have additional comments or questions please feel free to contact the Finance Department.

* Budget revenues exclude beginning balances. Budget expenditures exclude contingencies and ending balances.

** Budgetary Balance refers to total fund balance excluding capital assets, long-term debt, and interfund loans.

*** Actual columns represents the expenditures and revenues received in the month for the current fiscal year. Depending on the program these results may run approximately 1/2 month behind given the fiscal year-end accruals that will be recorded at the end of each fiscal year. For the months of August-May month-to-date results are fairly representative of a typical month (barring seasonality issues and a handful of revenue items received in August). At fiscal year-end, any revenues due at June 30th received by August 31st in Governmental Funds will be recognized as revenue in the prior fiscal year. In this same manner, all expenditures due at June 30th (which are generally paid by July 31st) are also recorded to the prior fiscal year. Thus the July and August report may not reflect a typical month and the June report will have higher than average revenues and expenditures.

3. Art Along the Rogue recap

- Jon gave the committee an update of First Friday live and Art Along the Rogue and let them know that there was a great turnout with a much higher attendance than last year. Jon was not able to give an accurate count on attendees but he said it “felt like 12,000 people over the course of the weekend”.
- Jon let the committee know that there was one issue of a menacing person who was aggressively handing out materials on First Friday and at Art Along the Rogue. This will need to be discussed with Public Safety.
- Art Along the Rogue made it into the paper.
- Jon let the committee know that they changed their advertising methods up this year. They advertised in Medford and Ashland, up the coast, but put more focus on social media.

- One plan for next year is to have a separate culinary area for alcohol and food samples.
- This year they were able to broaden the age range of attendees.
- Jon gave an update on the portable murals. They had a hard time finding artists this year but are hopeful for next. They were able to get one piece of a glass blower. It will need to be completed but it looks great so far.
- Jon confirmed that they do reach out to the Colleges and put the word out for artists in the Rogue Valley.

4. Trolley topic (confirm specific parameters of use)

- Jon met the lady who runs the trolley in the Medford/Jacksonville area. She did say she would come to Grants Pass if it was lucrative enough.
- Josephine country transit is also interested but it would be a standard bus rather than a “trolley” and there would be more compromises to be made than if it was an outside vendor.
- The committee discussed that they would almost need an RFP on what they needed to bring to the various possible trolley options.
- The committee discussed the parameters that they would like to see.
- The committee decided that the time frame of May 1st – October 15th would work well for them.
- Friday-Saturday to start, possibly Thursday in the future if all goes well. Extra days can be added for special events.
- The committee discussed the timeframe of 3:00-10:00pm for pickup hours.
- The committee discussed a route that will need to be finalized in the future. The route options as of now include stops at the following locations: the Visitor Center, across the street from the Redwood Hotel, the Welcome Center, the intersection of 3rd and G, the intersection of 6th and H, the intersection of 6th and K, Hellgate, Park St, Riverside Park, and the intersection of 7th and G.

5. Tourism Report

- Jon let the committee know that they designed and debuted a new t-shirt design and tested it at Art Along the Rogue. Darin suggested that they offer some to the City Council to purchase.
- Jon let the committee know of a merchant meeting that will be on Wednesday October 26th in the Council Chambers.
- Jon is preparing to introduce a Christmas program to the local merchants. The program will be \$150 to participate in the “shop and win” contest. There will be two commercials that feature merchants who participate on a higher level in a story line that portrays the magic of Christmas. There will be 30 second versions for television and longer 2 minute versions for social media campaigns.
- Jon let the committee know that he is working on the parade.
- Jon let the committee know about the freelance travel writers that were hosted in Rogue Valley. They have already started writing about their experiences in Grants Pass and everything looks very promising. The committee discussed some of the benefits of the writers coming to the area.

6. Updates on June 2017 Event

- Barbara let the committee know that the Gladiolas Festival will need to be renamed as they will no longer have a focus on the gladiolas due to blooming times. There will still be balloons and kites and it will be held at the River Rogue Reserve. Darin suggested calling it an “Ag Festival”.
- The June Porch event is being worked on.
- The committee discussed the idea of the festival being for the waning/waxing of the moon, the beginning of a new season, “from the ground up”.
- The committee discussed the idea of asking the current tenant to consider growing some hops near where the festival will be held.

7. Comments/Updates from Committee Members

- Barbara let the committee know that they will need to turn in goals by the end of November for Goal Setting.
- Darin would like one of the goals to be getting music in the 5th and H area. While out of town visiting he came across “green mushroom caps” that were protected speakers. This would be a nice addition with themed music for different events. (50’s music for Back to the 50’s, Holiday music)
- Valerie mentioned that the bike committee is looking at long term goals in regards to getting trails extended and focusing on mountain biking as a point of reference for the committee.
- The committee discussed the Soccer complex that is being discussed for the fairgrounds.
- The new fairgrounds sign goes in on October 16th.

The motion passed.

Chair Fitzgerald joined the meeting.

4. PUBLIC HEARINGS:

None.

5. OTHER ITEMS/STAFF DISCUSSION:

a. Serial Meetings – Discussion

- Lora explained to the commission that there was a recent court case in which city councilors has discussed matters via email. The discussion was daisy chained until they came up with a majority decision. City staff would like to remind all of the committees/commissions to be aware of public meeting law and to please be careful to not unintentionally make a quorum outside of the designated meetings.

b. Goal Setting – Discussion

- Lora let the commission know that they will need to have their goals in by the end of November. Lora let the commissioners know that there will be a meeting in November and to please send suggestions for her to prepare for the packet for discussion.
- The commission discussed the email commissioner Coulter sent regarding the desire to review articles 25 and 27 in regards to traffic and access to parking. He had been concerned that there are situations where everything meets the code requirement but not necessarily the real needs. (Hawthorne for Gilbert, Winco area with the opening of Starbucks and Panda Express) Lora let the commission know that she had a conversation with their traffic consultant and he said the percentile that is being used for queuing may not be adequate for some projects.

c. Landscape Amendment

- Jim Love with the Urban Tree Committee has requested the commission look into a parking lot tree canopy amendment. Urban Tree would like to increase the size of the parking lot diamonds to provide more structural soil area for the trees and made reference to the Home Depot and Fred Meyer trees not surviving well. Urban tree

would also like to institute a better canopy/shade program. UAPC put together a residential amendment a few years ago and now Urban Tree would like the commission to move forward on a commercial amendment. Lora let the commission know that with their direction staff can start putting an amendment together and bring it back to you for review.

- The commission would like to have input from the developers on the trees to see if there might be some reasons that aren't being considered as to why they're stunted. Lora let the commission know that it would be in part to the fact that the parking islands are too small/narrow and not having adequate structural soils. There is not currently language in the code regarding this. This would be an opportunity to have language to group the trees to provide more shade as well. The Urban Tree committee has laid it out very well on what can be done and why. The City does not have an urban forester on staff to make sure that the trees are being taken care of; however the City might be able to use Jeff Nelson for that purpose or might need to contract the work out. There is good merit to their request and good recommendations.
- If the commission is interested staff can start drafting something and getting recommendations from local landscapers.
- The commission brought up that one recommendation was to increase the number of compact car spaces; they would like some statistics to support that need.
- There was a comment about small parking spaces in Medford (Trader Joe's) and not wanting to follow a similar trend here in Grants Pass.
- There was a discussion about smaller parking spaces possibly causing a problem. They would like to be careful to accommodate both larger vehicles and smaller and to have parking lots accommodate the turning radius for larger vehicles.
- Lora let the commission know that staff can get people we typically work with in to talk to them about parking. (Justin, Ausland)
- The commission had a discussion about the ingress over by Winco. The drive through line right off the ingress and exit. They want to

know if that build was okayed by the City. Lora let the commission know that at the time that did meet the standards. This was one of the locations they were talking about that make them think there is a need to make changes to the current standards.

- Commissioner Macmillan asked if the city has any authority to ask them to change the layout. Lora said that they can make a recommendation but can't force them to change it. She will try to communicate with them and hopefully they can work with the City.
- The commission asked if there was a backup plan at Allcare if there isn't enough parking. They have plans for a parking structure for Allcare, however they are having issues with employee parking at Gilbert.
- The commission asked if there have been any comments made since the changes to trees in residential areas were made. Lora let them know that it is still early in this stage and will be hard to tell. The new subdivisions are just starting up that will be affected by the changes.
- Commissioner Arthur asked about the meeting on the 30th. Lora let the commission know that date is being held in case it is needed but if it is not needed it will just be cancelled.
- Lora would like to wrap up goal setting on November 9th. Please turn in suggestions by November 9th to allow us to go over them.
- The commission and City staff agreed to get input on November 9th about landscape and move on a draft from there.
- The commission also requested to get input from the developers on how to solve issues at next meeting.
- Lora let the commission know that next Tuesday there will be a discussion on fee in lieu of development agreement from 3-5pm in Council Chambers. She will look into potentially adding this discussion to talk about parking lots. Council wanted to have a fee in lieu of program instead of a DDA for the builders and developers in the area. This already scheduled discussion will give her an opportunity to talk to the local developers on this subject at the same time. Some of the local landscapers as well.

- The commission had a discussion on some of the information provided by the tree committee.

6. ITEMS FROM COMMISSIONERS:

- None.

Resolution approving the inclusion of the City
of Grants Pass territory in the formation of the
Item: Josephine Community Library District.

Date: December 7, 2016

SUBJECT AND SUMMARY:

The Library has approached the City Council requesting that they be allowed to petition the voters to create a Library District. In order to be able to include the City within the proposed boundaries, the City must approve the inclusion of City territory within the Library District.

The resolution would provide authorization to include the City in the proposed Library District.

RELATIONSHIP TO COUNCIL GOALS:

This supports Council goal of **LEADERSHIP** by including the City in a proposed Library District and providing the City citizens the opportunity to vote on the formation of the District and on other matters concerning the potential District.

CALL TO ACTION SCHEDULE:

The Library needs the resolution prior to December 21, 2016 when the Board of County Commissioners considers the order. Call to action schedule: December 7, 2016.

BACKGROUND:

The City currently supports Library services at \$25,000 annually. One of the options for providing Library services is through a Library District that includes the City of Grants Pass.

COST IMPLICATION:

There are no costs associated with this action. Potential approval of a Library District and approval of an associated tax levy rate is proposed at \$0.39 per \$1,000 of assessed valuation. It is not expected to have any impact on City resources. If the levy passes, it is anticipated that the City's \$25,000 services contract would cease.

ALTERNATIVES:

Approve the Resolution; or,
Do not approve the Resolution.

RECOMMENDED ACTION:

Approval of this resolution is at Council's discretion.

POTENTIAL MOTION:

I move to approve the resolution including the City within the proposed Josephine Community Library District.

ITEM: 3.a. RESOLUTION APPROVING THE INCLUSION OF THE CITY OF
GRANTS PASS TERRITORY IN THE FORMATION OF THE JOSEPHINE
COMMUNITY LIBRARY DISTRICT.

RESOLUTION NO.

A RESOLUTION OF THE COUNCIL OF THE CITY OF GRANTS PASS APPROVING THE INCLUSION OF THE CITY OF GRANTS PASS TERRITORY IN THE FORMATION OF THE JOSEPHINE COMMUNITY LIBRARY DISTRICT.

WHEREAS:

1. The Josephine County petitioners and voters intend to form a Library District under the authority of ORS 357.221. The Library District would have authority to fund sustainability for and improvements to library services for all county residents; and
2. The Josephine County petitioners and voters may initiate the formation of a Library District by adopting an order under authority of ORS 198.750. The petitioners would like to include all county territory within the boundaries of the Library District; and
3. The territory of the City may only be included within the boundaries of the Library District if the City Council adopts a resolution approving the inclusion of City territory within the Library District; and
4. The electors in the proposed District will be asked whether the District should be formed and whether the proposed permanent tax rate limit of \$0.39 per \$1,000 of assessed valuation shall be adopted as the maximum rate of operating taxes for the District; and
5. The Grants Pass City Council believes a Library District will be able to better meet the needs for public library and informational services of all City residents.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Grants Pass hereby consents to the inclusion of all the territory of the City within the boundaries of the proposed Josephine Community Library District, and approves the petition initiating the formation of that District.

City Committee / Commission Appointment Questionnaire	

Statement of your reasons for desiring to serve:

I have always enjoyed working within the community and using my knowledge and experience to improve the lives of those around me. My fiancée and I have moved to Grants Pass to build our lives and raise our children near our family and I want to become part of what makes this area so great. I hope to use this position to help our city and its people prioritize spending to programs that will best help us all be more successful and happy. Through transparent operations, communication and ingenuity I know we can continue to build a wonderful relationship with the people of Grants Pass and allocate our financial resources in such a way that we ensure a higher quality of life is enjoyed by all.

Statement of any relevant concerns or goals to be achieved while serving in this position:

As I said this position will allow me to use my knowledge and experience to help cultivate an environment of cooperation and transparency through the responsible allocation of financial resources. My biggest concern is ensuring that these resources are used properly but also that the people of our community and their will is reflected in the manner in which we use them. Understanding the people and our community's goals is a pinnacle to understanding how to direct the future that will impact us all.

What do you think are the most critical issues facing this local government in the next three years?

I believe as our city continues to expand it is important for us to ensure we direct our resources to help accommodate that expansion while still maintain the core principles that the city was built on.

Are there some things about the City of Grants Pass that you have a special interest in?

The manner in which our government, individuals and business have worked together to develop the city and I believe fostering these relationships will help ensure continued progress and prosperity.

A Dreamer and Visionary, Andras came into the world in the midst of bombing and has been a Peace-nik ever since. He has witnessed revolution and the evolution of humanity. A Magyar from Hungary, Andras has played many roles in the stage of his life, including producer, documentarian, artist, advertising executive, actor on the stage and screen, and witness to the human experience globally. Andras is the original "Heartist in Resonance" with a vision of Peace and how to produce it in the world. Andras' first job out of college was operating a government social program designed to get people off welfare and retrain them for jobs in the coal mining communities in West Virginia. He moved on to the advertising industry, managing the account of Proctor and Gamble's 'new baby' Pampers. Picture Artistic expression became Andras' passion as he dove into New York Theater as an owner, director, producer and actor. While playing a role in a film by Susan Seidelman (her Master's Thesis which was nominated for an Academy Award in the short dramatic category), Andras wrote and acted in this first 'FutureMentory' film . The film's success took him to California to create many other roles - eventually authoring, starring in, producing, and directing many projects and artistic expressions. While presenting a project at Caan Film Festival, Andras began a ten year experience of exploring the lives of Vincent and Theo Van Gogh, eventually portraying both men in a one man play. A competitive swimmer and soccer player, Andras studied breathwork at the Self Realization Fellowship and trained as an Art of Living teacher under Sri Sri Ravi Shankar. The Guru from India invited Andras

to travel with him as videographer over a three year period. Andras opened Hungary and the big island of Hawaii for Art of Living. He traveled the globe, walked with Masters and experienced life in many parts of the world, expanding his personal education.

City Committee / Commission Appointment Questionnaire

Statement of your reasons
for desiring to serve:

Public Art tells visitors and residents who we are as a city. I am an artist who has used many mediums including paint, sculpture, drawing, and art of the Heart. I call myself a Heartist, and bring the heart of art into expression. Having made my residence in Grants Pass, I would like to serve the community by helping choose how we express ourselves in ways that draw more visitors and tell a story of a community bound together with love..

Statement of any relevant
concerns or goals to be
achieved while serving in

Art must be purposeful and with clear intent to make a statement that truly expresses the community as a whole. I have studied all over the world with many famous and not so

this position: famous artists. Combined with my marketing background... having been on the team that brought Pampers to the public, I have a unique perspective of how to use public art to draw people to our community.

What do you think are the most critical issues facing this local government in the next three years? Bringing compassion into government and serving all people with equal justice.

Are there some things about the City of Grants Pass that you have a special interest in? I have an interest in having a city that works for all people. I would like to see the visitor's center open on First Fridays with local artists featured along a theme each month... many artists each submitting a single item to display.

Andras' first job out of college was operating a government social program designed to get people off welfare and retrain them for jobs in the coal mining communities in West Virginia. He became a YMCA Director, working to heal racial inequality in the program in New Jersey, which led to his discharge after speaking up in a conference about the Race Concern for the YMCA. Andras moved on to the advertising industry, managing the account of Proctor and Gamble's 'new baby' Pampers. It didn't take long for him to discover that the lifestyle of an Advertising Executive in the 1960s was not a way to live a healthy life. Artistic expression became Andras' passion as he dove into the New York Theater world as an owner, director, producer and actor.

Susan Seidelman invited Andras to play a leading role in her Master's Thesis from NYU Film School, which was nominated for an Academy Award in the short dramatic category, Andras wrote and acted in this first 'FutureMentory' film where the part became his life. The film's success took him to California to create many other roles - eventually authoring, starring in, producing, and directing many projects and artistic expressions. He traveled the globe, walked with Masters and experienced life in many parts of the world, expanding his personal education.

When Andras enters a room, he is noticed. His purity of heart walks before him and wisdom guides his steps and words. He is the expression of the new man: gentle, kind, caring, compassionate, firm, strong, capable, and wise with a wisdom born within. With conscious intention, Andras has chosen to direct all his vision for seeing "the big picture" into producing peace for humanity.

Step 2

City Committee / Commission Appointment Questionnaire

Statement of your reasons for desiring to serve: Growing up in Grants Pass, the arts were the epicenter of my existence. They were foundational to my development and sense of self and wellbeing. I enjoyed working with many of the cornerstone arts organizations in our area, and was privilege to visit the spaces of many talented visual artists in and around our city. I launched into university as a musical theater major, but when I changed my major half-way through, I dropped it all - including a huge part of myself. Now, almost a decade later, I am reconnecting with that very important part of myself, and, as a young person who had many times attempted to leave the area but to no avail, I am coming out of hiding. I am so ready to give back to my community with everything that I have to offer. The past two years in a leadership position at Asante have given me some great professional exposure and practice. I am leading a team of twenty people, and am responsible for providing them with support and direction on a daily basis. I serve on many Information Technology committees at Asante, and have had the opportunity to be at the frontline as we transform our project implementation processes. With these experiences under my belt, and my desire to contribute to making our city continue to grow to the great potential that it has, I definitely feel that I have something to give back to my community. I am inspired by what seems to be a rush of good energy and developments in Grants Pass, and I am inspired by the people that are contributing to making that happen. I want to be one of those people. Attached is a copy of my resume as a full synopsis of my professional and educational experience. Thank you for taking the time to review my application!

Statement of any relevant concerns or goals to be achieved while serving in this position: I am concerned that I have lived in Grants Pass for 29 years and, until Google-ing it just now, I had no idea who this Grant was, or why he passed here. The arts have a unique opportunity to help a community develop identity in a non-polarizing way – and a community with an identity, is a

community with which people can identify and feel a sense of belonging – ultimately contributing to their satisfaction about living in a place. I would love to help Grants Pass develop a strong identity to which people feel connected I am concerned that the quality of life may not be great enough to attract and retain, and young professionals my age are looking to leave the area. The arts, as manifestations of imagination - something we all have, but very few of us have the opportunity to routinely express - are something we can all easily identify with and enjoy. I would love to contribute to the support of artistic expressions in our community that can be widely enjoyed by its members and improve quality of life in the city.

What do you think are the most critical issues facing this local government in the next three years?

I know there are many issues facing our local government, however, the issue that I am most concerned with – and the reason I have chosen to apply to this committee – is that of quality of life for our city's residents. I believe that a community full of residents who are invested and proud of the place they live, is a community that will continually benefit from the generous and unexpected contributions of its members.

Are there some things about the City of Grants Pass that you have a special interest in?

I have an interest in contributing to the infusion of creativity into our city. By infusing our city with creative events and spaces, we provide the opportunity for others tap into their own imaginations and feel joy and increased satisfaction about their place of residence. I have an interest in helping Grants Pass develop a strong identity to which people feel they belong, and feel compelled to give the best of themselves. Grants Pass is a beautiful place. I hope I get the chance to meet with you all, as the members of CoPA, and work towards a shared goal of continuing to make Grants Pass a great place to live!

World Beyond War

ATTN: Leah Bolger and David Swanson, Executive Committee
P.O. Box 1484
Charlottesville VA 22902 USA

RE: FULLTIME ORGANIZER

Dear Ms. Bolger, Mr. Swanson, and the recruiting team:

As a Heartist seeking peace in the world, your advertisement for a Full Time Organizer caught my eye. The work you are doing aligns completely with the work of my heart and mind. My skills and gifts have been developed to exactly meet your organization's need in this time... now. "A world beyond war is achieved through the production of peace." *Andras Maros, founder of Peace Production.*

Co-creating Peace is my passion. Local action at a global scale is the most effective way to build consensus and entrain large groups of individuals with single intent, as you know well. It is now time for all peace activists and peace builders to come together as a force of creation to build systems and structures that will make war obsolete. We must look beyond what is now... to the vision of a future where no country feels the need to attack and invade another country. That will happen when the individuals who make the decisions have no fear of the 'other' to incite violence in either self protection or aggressive action.

You will see in my CV that the skills and qualities you seek are rich and prevalent in my experience. I've included letters of reference from those who know me well and have worked with me in community. Also included is a plan for Peace Building Synergy—a Symposium to teach HOW to co-create communities that work for all. I have consulted with the US Dept. of Education, State government, private schools, nonprofit organizations, and for profit businesses. Each client was enriched by my service.

In these moments in our world, we have the grand opportunity to realize that all the building blocks of creation are in the air... unsettled and unknown as to how they will realign and fall into place again. It is only with conscious intention that we may take those building blocks and creative elements to restructure and re-pattern our societies, systems, and way of being in the world. These are the moments we have all been waiting for—and we need not wait any longer. Time is NOW for producing a world with a Culture of Peace as the foundation.

My current residence is in Grants Pass, Oregon where my ancestors landed at the turn of the century. I've touched on the depths of racism here, as the place where the KKK had their headquarters in the 1920s and where all the indigenous people were annihilated. The roots of our very nation are exposed here in this small segment of a culture built on racism and elitism. These are the roots we must attend to for peace to develop in humanity's culture and society.

I look very forward to a conversation, whether on Skype or the phone, to talk further about what specific plans you have for World Beyond War and the position you are filling. My Skype is Mayana.Bliss, my Facebook page is Mayana Rayta, and my schedule is very flexible so I can meet at your convenience.

In peace,

Mayana Kingery

Consulting Services:

Mayana provides professional services, training, and guidance to governments, businesses, nonprofit organizations, and individuals.

Board Training and Development: Having the right Trustees on your board ensures the success of an organization. Executive Director Mentoring: Guiding ED's through the process of knowing where to focus their energy, attention and talents provides for stability in an organization. ED's are often over-worked, underpaid, and undeveloped. Board and organizational support for this key position are critical for non-profit success. Mayana will guide the ED into developing strong relationships with Trustees and mentor them as they bring forth the organization's vision as directed.

Organization Evaluation: Thorough examination of all relationships in a nonprofit including business accounts, interpersonal relationships, office management and procedures, donor relations, and volunteer relations. Organizational health comes when dysfunctional relationships are discovered and rooted out and that takes a fresh perspective. Mayana has a big picture view that allows her to see where healthy changes are best made.

Fund Development: Establishing regular, recurring fundraising activities eases the burden on all staff and volunteers. Grants, Annual Funds, Endowments, Service Fees and Project Based Fundraising each bring a part of the support for an organization. Individual organizational fund programs are enriched by community collaborations. Mayana has created unique fundraising activities for organizations that become foundational annual events.

Marketing Materials: Developing brochures, business cards, event flyers and web based information is crucial for any business, including nonprofits. Mayana has always been a step ahead of technology with her eye for design and creates stunning materials for programs, events, and organizations.

Newsletters: Letting your clients and customers know what is happening is a great way to stay connected. Mayana creates rich newsletters that inform and educate, as well as engaging readers to take action.

Individuals: Mayana is a spiritual guide and mentor for those going through the self-healing process. Her own journey of self-healing from fibromyalgia taught her much and she shares with her clients as each individual needs. Peace Building Synergy... a Peace Production

Following the wisdom that "there is only one peace to produce... in the heart of humanity" (Andras founder of Peace Production) - these three patterns emerged for HOW to produce that peace. A Symposium is the training ground for Peace Building Synergy. 144 participants experience personal sovereignty and then discover how they work best in each Sphere of Community. This process allows community activation and life affirming creations to emerge. The participants each leave the Symposium with a guidebook for their personal work in co-creative community. Program design by Mayana.

Spheres of Sovereignty

Every individual also has a pattern with 12 Spheres of Sovereignty. When harmonized in the individual... the shadow and resistance has no power. Coming into harmony in oneself is crucial for peace to manifest in the world. The 12 Spheres are:

**Spirit ~ Ego ~ Mind ~ Presence
Elements ~ DNA ~ Earth ~ Soul
CoCreate ~ Bliss ~ Power ~ Aura**

This pattern for personal Sovereignty allows the individual to know how they give and receive in the world and other realms. When harmonized in the individual, their 12 strand dna supports manifesting their highest and best purpose while here on Earth.

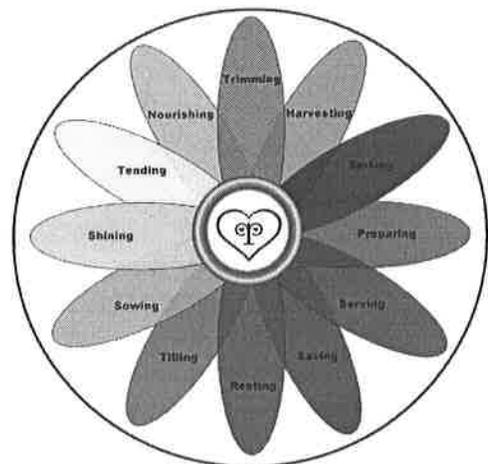

Spheres of Service

Once the individual is sovereign in themselves, they are ready to work in community and in co-creation with others. The way we work in each sphere of community is unique in every moment.

The 12 Spheres are:

**Tilling ~ Sowing ~ Shining ~ Tending
Nourishing ~ Trimming ~ Harvesting ~ Sorting
Preparing ~ Serving ~ Saving ~ Resting**

By honoring 12 Spheres of Service, we each have the opportunity to discover HOW we bring our gifts to each of the Spheres of Community. We offer a different service depending on where we are personally and what we are working on. Awareness allows a full and rich harvest individually and collectively.

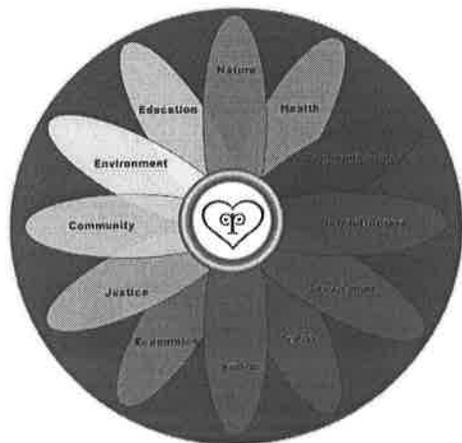

Spheres of Community

Following the visionary work of Barbara Marx Hubbard, Peace Production has expanded on her Wheel of Co-Creation and offers a slightly different perspective of the Spheres. By changing to spheres from wheels, we find more overlap than with sectors. These 12 Spheres of Community, when working together with single intent, implant the pattern for creative manifestation. The 12 Spheres are:

**Nature ~ Health ~ Communication ~ Infrastructure
Arts & Culture ~ Science ~ Wisdom ~ Economics
Justice ~ Community ~ Environment ~ Education**

Every individual affects and is effected by all 12 spheres, though they initially may recognize only one to three spheres they serve in.

To Whom it May Concern:

I've been working with Mayana Kingery as a volunteer on several projects over the last year. I met Mayana and immediately connected with her heart for service in the community. We are working together on several projects currently and I appreciate her willingness and high level of professional skills and abilities.

Mayana helped organize the first Healthy Food Festival and is taking the lead on managing our meetings for the Second Annual HFF. She built the website last year, revised it for this year, and has created all the sponsor and vendor forms as well as having designed the 'contests' for youth. Her document design skills and desktop publishing will put forth any project in a good light.

Mayana has the ability to take my general ideas and put them into beautiful form on paper with graphics and images that get the message across simply. She has been volunteering to support me with Securing Our Safety, Grace Roots, and the Healthy Food Festival.

Mayana understands the challenges people endure, as well as the resources and benefits that are available to repurpose, redirect, and gather together for a safe and secure greater community. From my perspective, you could not do better than to retain Mayana in this position.

Sincerely,

Dear World Beyond War Hiring Team:

Mayana Kingery requested that I write a letter of reference for her regarding the position you have open for Full Time Coordinator.

It has been my pleasure to know and work with Mayana since she moved to Grants Pass nearly two years ago. I have experienced her as a person of great integrity.

Recently we worked together on a project with several other people on a committee. It was very easy working with her. When there were differences of opinion, she did not get flustered and joined in in a positive way. We were working on updating a complicated legal document. She took charge of keeping us focused, did most of the technical aspects and it was a pleasure working with her.

I also discovered that she is quite the artist after seeing some of the fliers and advertisements she created. Her work is delightful.

Mayana shared with me about the position for which she is applying. I highly recommend her personality and talents for this job. Please do not hesitate to contact me if you wish.

Sincerely,

Judi Holdeman
