

CITY OF GRANTS PASS, OREGON CLASS SPECIFICATION

Utility Worker II

FLSA Status: Non-Exempt
Bargaining Unit: Teamsters
Salary Grade: TE4

CLASS SUMMARY:

The Utility Worker II is the second level in a seven level Utilities Operations Series. Incumbents may be assigned to Water Distribution, Wastewater Collection and/or Water Restoration. Responsibilities vary based on assignment and include maintaining system operability, providing adequate fire flow and emergency water storage, preventing water loss, responding to customer concerns and system failures. Incumbents may operate heavy equipment, hand and power tools, a motor vehicle and electronic equipment and cameras. Incumbents are expected to provide training and guidance to Utility Worker I, seasonal and temporary workers.

The Utility Worker II is distinguished from the Utility Worker I by its focus on semi-skilled to skilled maintenance and mid-level certification.

TYPICAL CLASS ESSENTIAL DUTIES: These duties are a representative sample; position assignments may vary.

All Divisions:

- Completes training necessary to obtain and/or maintain required certifications.
- Conducts research, completes documentation, and maintains required paperwork.
- Operates a gas monitor and blower for confined space entries, and completes required paperwork.
- Maintains job site safety in compliance with City policies and OSHA requirements.
- Safely operates a motor vehicle, forklift, high pressure vacuum truck, dump trucks, back hoe, front loader, jackhammer, jumping jack, and/or other equipment of a similar nature.
- Safely uses a variety of hand and power tools, including a jackhammer, tapping machine, pipe threader, ladders, and other equipment as required depending upon assignment.
- Performs equipment maintenance tasks such as safety checks, lubricant application, fuel and minor repairs.
- Delivers professional and courteous customer service when responding to customer service requests, questions and complaints.
- Responds to emergency calls, including after-hour response.
- Other duties of a similar nature as required.

Water Distribution:

- Installs water services, fire hydrants, air release valves, water valves and restraining devices.
- Calculates and orders supplies for backfill, thrust blocks, straddle blocks, asphalt restoration and similar tasks.
- Collects water samples, submits samples for lab testing, generates reports and maintains data collection records to ensure compliance with State mandates.
- Flushes water mains and dead end lines based on water sample results and a flushing schedule, and responds to flow and pressure related concerns to perform necessary testing and make repairs.
- Locates underground water lines, generates maps of the area, acquires TV reports of lines, and accurately marks locations.
- Chlorinates and de-chlorinates fire hydrants and water mains as needed.
- Oversees and completes utility final inspections, punch lists and performance bond inspections to ensure standards are met and corrections are completed.
- Inspects backflow devices; maintains accurate records and coordinates notification to affected citizens and business owners.
- Repairs water main breaks utilizing wrap around clamps, replaces broken pipes, connects new pipes to existing pipes, and installs and repairs water services.
- Inspects, installs, maintains, and repairs water distribution infrastructure.
- Installs customer service lines and water valves in a variety of sizes appropriate to customer's water meter and completes repairs of water valves in various sizes.
- Monitors water main taps in a variety of sizes and maintains level oils.
- Inspects, installs, maintains, tests, and removes water meters.
- Operates and maintains underground boring equipment.
- Completes asphalt restoration by safely using vibraplate, compactor/roller, and flame thrower.
- Repairs and replaces sidewalks and drive approaches, saw cuts, grades out concrete and orders materials.
- Manages traffic by coordinating a traffic control plan, setting up control equipment and directing traffic.
- Handles utility billing service orders to include water turn on/shut off orders, leak detection, and repair of broken parts.

Sewer Collection:

- Assists with and operates the TV truck to complete precise inspections of the collection system.

- Operates a high pressure vacuum truck to excavate holes, unclog storm drains, remove debris from around pipes, clear catch basins, and various similar tasks; repairs cleaning hose as needed.
- Completes sewer cleaning with use of proper nozzle and pressure selection based upon the sewer pipe.
- Locates underground sanitary sewer lines, generates maps of the area, acquires TV reports of lines, and accurately marks locations.
- Inspects, identifies issues and repairs sewer manholes and pipes for cracked and/or broken interior and exterior structures, including computerized television inspection.
- Repairs and maintains sewer mainlines and sewer laterals, and sewer force main air release valve and charcoal canisters.
- Oversees and inspects pre and post-construction of street utilities, sewer mainline repairs, and sewer lateral repairs, and reports findings.
- Manages traffic by coordinating a traffic control plan, setting up control equipment and directing traffic to maintain traffic flow and work zone safety per OSHA regulations.
- Records and reports accurate data and mapping information.
- Responds to customer concerns and complaints regarding sewer issues.
- Reports supply and inventory needs to maintain sufficient stock to complete work assignments.

Water Restoration:

- Evaluates needs and completes general maintenance, cleaning painting and minor repair of buildings, pumps and other equipment, determining when to perform required tasks.
- Operate and maintains the Solids Thickening and Solids Dewatering equipment.
- Assists the Treatment Plant Operators and Mechanics as needed.
- Operates heavy equipment such as the water tanker truck, loaders, dump trucks and excavators.
- Safely operates a forklift to move objects and sludge boxes for scheduled hauling.
- Completes general ground maintenance at the Water Restoration plant using lawn mowers, weed eaters, chainsaws, and other power and hand tools.
- Directs the work of contracted building and grounds maintenance employees.

Training and Experience (positions in this class require):

A High School Diploma or equivalent and 2 years of directly related experience in a utilities environment are required; or an equivalent combination of education and experience sufficient to successfully perform the essential duties of the job such as those listed above.

Licensing Requirements (positions in this class require):

- Valid Oregon Driver's License Class C and Commercial Driver's License Class B with tanker endorsement
- Forklift Certificate

Water Distribution & Collection: (in addition to above requirements)

- OHA-DWP Water Distribution I and Wastewater Collection I Certificates with a Level II Certificate in area of expertise
- Backflow Inspector or Tester Certificate
- Oregon Certified Flagger

Water Restoration: (in addition to above requirements)

- OR DEQ Wastewater Treatment II Certificate

Incumbents may be required to obtain CPR certification, Confined Space Entrant, Attendant and/or Supervisor Certification, and/or a specific Competent Person certification. Incumbents must be in possession of or have the ability to obtain any certification or license required by City, State or Federal agencies to work in assigned position.

Knowledge (positions in this class require):

Knowledge of:

- Safe use of a large variety of hand and power tools;
- Water testing methods and techniques;
- Reading maps and utilizing G.I.S. to locate utilities;
- Safety practices and OSHA standards;
- Water distribution, sewage collection and/or wastewater treatment processes;
- Hydraulics, water flows and pressures;
- Pump systems;
- Pipe fitting, plumbing, underground pipeline work and construction;
- Fundamentals of mechanics;
- City pressure zones and distribution piping;
- Personal computers and related software programs;
- Applicable City policies and ordinances; and,
