1.0 Executive Summary

The City of Grants Pass Citizen Survey was administered by NuStats from June 15th through July 7th, 2015. The survey was administered to Grants Pass residents as part of the City's effort to assess services provided by the City, as well as to collect opinions on the overall status of life in Grants Pass. For the second year, the survey was provided in both English and Spanish, with no Spanish interviews requested. A total of 409 interviews were completed.

The following table provides an evaluation of the outcome of the calls placed:

Year	Total Calls	Completes	Refusals	Dialing Hours	Final CPH
2015	11,394	409	887 (47.3%)	284.74	1.44
2013	5,124	400	415 (35.1%)	185.70	2.15

Our Completes Per Hour (CPH) was lower in 2015, and our refusal rate was significantly higher, as may be seen in the table above. This is thought to be attributed to a larger group of seasoned staff having worked on the 2013 project. Each individual question has been addressed in Section 2.0, survey results, and a summary of the sample used is also provided in Section 2.0.

General findings have not varied greatly in the year and half since the last survey; the citizens of the City of Grants Pass are pleased with living in the City. The citizens enjoy the climate, scenery, friendliness of the community, and the feeling of it being a small town, while still providing many of the amenities the citizens need and enjoy. An overwhelming number of citizens responded to the question "What do you particularly enjoy about living in Grants Pass?" with the vast majority of those comments being positive.

Citizens concerns about safety, law enforcement, and homelessness continue to top the list of things the citizens of Grants Pass are unhappy with. The citizens feel the transient population has increased, and several references to illegal drug use were made in the comments. Fifteen citizens reported they don't feel safe in the parks. A number of respondents commented that they feel City government is corrupt, and that the City needs more activities for the youth to take part in. Several respondents expressed dismay about the taste of the water. The majority of respondents noted that if Josephine County was unable to provide support for the jail, they would be in favor of the City providing financial support to the Josephine County Jail.

The survey interview length averaged less than 10 minutes, which is the amount of time anticipated for this number and complexity of questions. The refusal rate (47 percent) was higher than anticipated, as it was expected that citizens who are registered to vote are generally more interested in their city management, economics and lifestyle than citizens who are not registered to vote.

Due to time constraints and the additional cost of mailing postcards to selected respondents, NuStats recommended the City of Grants Pass not add a web component for 2015. NuStats has found that the addition of a web component without the accompanying notification of the survey either by email or mail to not be cost effective. Therefore, the addition of pre-notification to selected households, along with a web component for the next Citizen Survey, is recommended.

2.0 Introduction

The City of Grants Pass has an estimated population of 35,272¹ and operates a wide range of services that include Police and Fire protection, a Water Utility, a Sewer Utility, a Street Utility / Transportation maintenance, Parks, Development, and a wide range of administrative and internal service funds that include services such as Fleet, Engineering, Property Management, Information Technology, Administrative Services, and others. The opinions of the citizens of the City of Grants Pass are very important to the City leaders, and as such this survey is the tool utilized to collect those opinions. The data collected will serve as a guide for the goal setting process and establishing priorities for the City's work plan.

The City of Grants Pass has conducted a survey of its citizens annually since 1998, with the exception of 2008, 2011 and 2014, with the objective of determining the opinion of its residents about the various services provided by the City, and pinpointing where improvements are needed as well as determining if the services currently being provided are considered appropriate. In 2015, NuStats, LLC was selected to conduct the City of Grants Pass Citizen Survey. The survey was administered via Computer Assisted Telephone Interviewing (CATI) and consisted of 10 questions about City services, 8 questions about public involvement and information, 9 questions with regard to living in Grants Pass, 3 questions added for 2015 that contained two close-ended question and one open-ended question, and 6 demographic questions, two specific to ethnic origin.

As in 2013, there were two qualifying questions included in the survey:

HELLO1: Are you a resident in the City of Grants Pass? And;

INVOLVE: Is there anyone currently living in your household who is employed by the City of Grants Pass serves on the City Council, or is an appointed member on other City Boards, Committees, or Commissions?

If the answer to HELLO1 was "No", the interviewer requested to speak with someone who is a resident of Grants Pass. If that answer was also "No", the interviewer thanked the respondent and read the termination script. If the answer to INVOLVE was "Yes", the household was disqualified and the interviewer thanked the respondent and read the termination script.

Sampling

In order to collect opinions from 409 citizens of Grants Pass, a total of 2,344 sample records were contacted, producing a completion response rate of 17.4%, which is approximately 2% higher than the 2013 survey. Of the 2,344 sample records, 2,007 were randomly selected from the registered voter lists, and 337 address based samples with matched phone number were purchased from a sample provider, Marketing Systems Group located in Horsham, Pennsylvania. The purpose of adding randomly selected address-based samples that are mutually exclusive from the voter list was to cover non-voter residents in the study area. MSG randomly pulled 1,000 addresses from an address-based sampling frame. In this process, MSG screened out any duplicate address from the voter list that the City provided. One thousand address-based samples were then matched to the listed phone number database in order to match addresses with phone numbers to contact via a phone. As a result, 286 phone numbers were successfully appended. This match rate is low, due to not allowing duplicate phone numbers from the client-provided voter list. In order to increase the number of phone matched records from address-based sample, the unmatched address sample list were sent to the client for 911 call record matching. This yielded an additional 51 non-duplicate matched phone numbers. As a result, a total of 337 addresses with matched phone numbers were available for dialing.

3.0 Survey Results

This section provides a summary of the survey results for each question, and includes three comparison graphs, which utilized the results of the citizen’s rating of Grants Pass as a place to live (favorable vs. unfavorable) to compare with demographics, the rating of City services, and level of public involvement.

Table 1 shows call results of 2,344 sample records that NuStats attempted to contact. Largely, call attempts yielded three types of call results: eligible that includes completes; ineligible; and unknown eligibility. Samples that are qualified, and either participated in the survey or refused to participate in the survey, were coded as eligible samples. Samples that were successfully contacted, but turned out either to be disqualified or have invalid phone numbers, were coded as ineligible samples for the survey. Samples where contact was attempted, but not successful due to refusal, hang up, no answer, or always busy, were coded as eligibility unknown.

Table 1: Final Call Disposition

Call Outcome	Sample Counts
Complete	409
Incomplete Eligible	132
Ineligible	732
Eligibility Unknown	1071
<i>Total</i>	2,344

Three categories of the final call dispositions are used to calculate the response rate based on the method developed by the Council of American Survey Research Organizations (CASRO), which takes into account ineligible sample and unknown sample. Using the CASRO method, the percent of unknown numbers that will be found to be eligible is $(\text{eligible}/(\text{eligible}+\text{ineligible}))$. The eligible count is 541 while the ineligible count is 732. The percentage of unknown numbers that will be eligible is 42.5 percent, and that yields the total eligible numbers to be $541+(1,071*42.49\%)$ or 996. The response rate is 41.1 percent (409/996).

3.2 City Council Questions Modified for 2015

Multiple questions were modified from the 2013 for the 2015 survey. Below are the questions presented as they were in 2013 compared to 2015. Most of the questions simply involved wording changes, however, a few of them changed from one type to a different type of question - scale rating, yes/no, or open-ended response questions. Additionally, some of the wording revisions changed the root of the question. Table 2 presents the 2013 vs. 2015 question changes.

3.3 City of Grants Pass Services

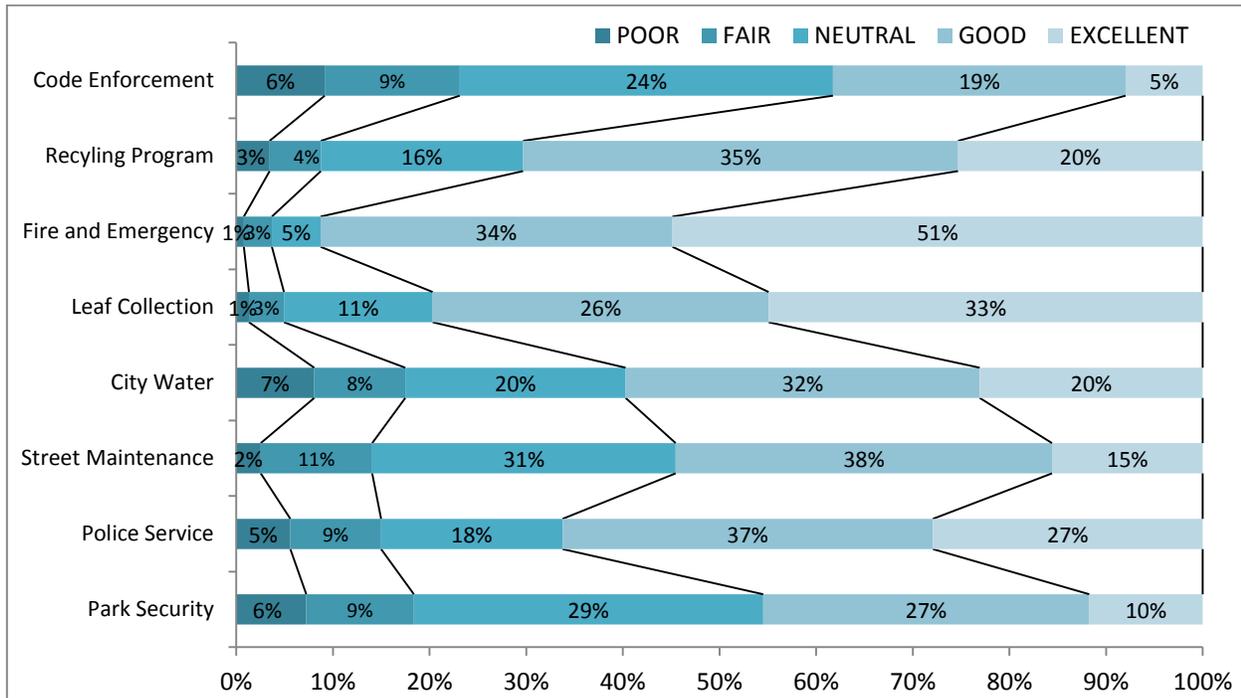

This section provides the results of all questions pertaining to City of Grants Pass services. These services include: Parks Security; Police Services; Street Repair Maintenance; Water Quality; Leaf Collection; Fire and Emergency Services; Recycling Services; Code Enforcement, and; Recreation Programs. The rating of these programs and services was gathered utilizing a scale of 1 to 5, with 1 being “poor” and 5 being “excellent”, for all except one question – *Would you like the recycling program service expanded?* – which was presented as a “yes/no” question. Figure 1 presents the overall ratings of the City of Grants Pass’ services from poor to excellent.

The highest rated service was Fire and Emergency Services, with 51 percent of respondents rating this service as excellent, and an additional 34 percent rating this service as good. There were three low rated services. City Water was the lowest rated with 7 percent of respondents rating this service as poor. Code Enforcement and Park Security, each with 6 percent of respondents rating these services as poor.

Grouping the good and excellent responses together yields the favorable response percentage of each service, and Fire and Emergency Services also ranked highest with a favorable rating of 85 percent. The Police Service ranked second highest with a favorable rating of 64 percent. Conversely, grouping the poor and fair responses together yields the unfavorable response percentage of each service. Three services tied with the most unfavorable rating of 15 percent. These services were: Code Enforcement, City Water, and Park Security. Police Service received an unfavorable rating of 14 percent.

In looking at the overall responses, most citizens provided favorable or neutral responses with regard to questions about City of Grants Pass Services. It should be noted respondents had the option of refusing to answer these questions, therefore, this chart only shows the responses of poor, fair, neutral, good or excellent, and individual programs or services may not total 100 percent.

3.4 Public Involvement and Public Information

The City of Grants Pass makes every effort to provide opportunities for the public to be informed of, and become involved in, public meetings, city issues, and activities. There are a variety of communication tools the City of Grants Pass utilizes to dispense information to its residents. Some examples are the City of Grants Pass newsletter and the City of Grants Pass website. In addition, the City ensures appropriate information is released to the local media resources. Table 4 provides the results of the respondents' opinions with regard to if there are adequate opportunities for people to participate in and influence decisions made by the City. Overall, 60 percent of respondents feel they have adequate opportunity to participate in and influence decisions made by the City. This is an increase of 3 percent over the 2013 survey.

An improvement of more than five percentage points over the 2013 results is shown in Table 5. When asked if they have taken the opportunity to participate in or watch City meetings, in the previous 12 months, nearly 18 percent of respondents actually attended a City Council, Planning Commission, Budget Committee or other public meeting.

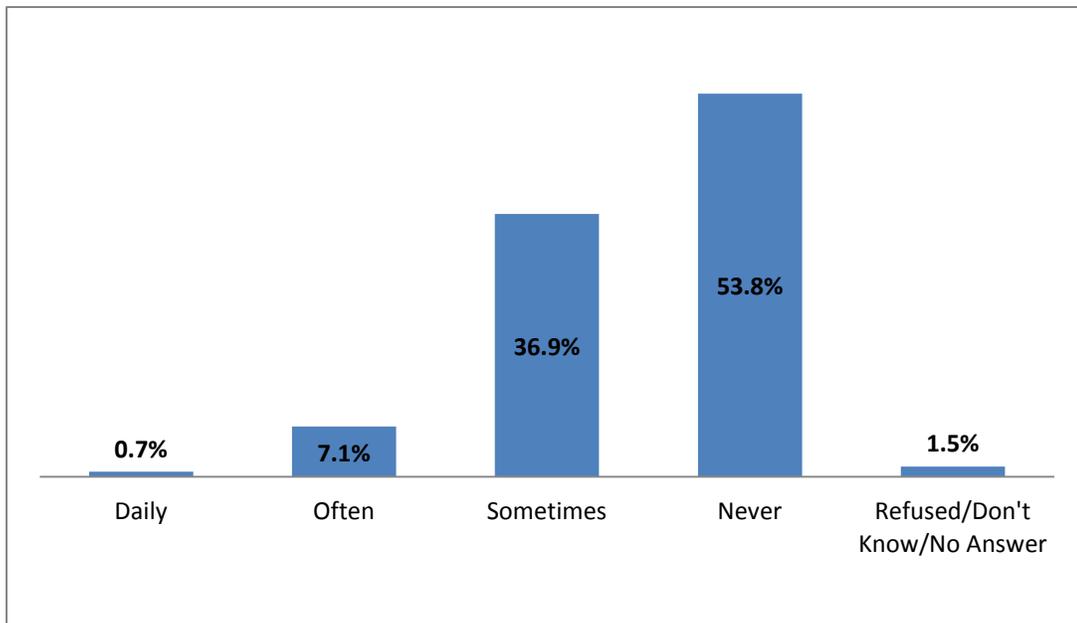

Figure 3 provides the results of which resources citizens utilize to keep informed of City issues and other activities. The majority of citizens (69 percent) rely on newspaper articles to keep up-to-date on issues and activities happening in Grants Pass, followed by television news (62 percent), and newspaper advertisements (51 percent). The top three resources are the same as they were in 2013, however, a larger percentage reported using available resources across the board in 2015. Social Media was not included in the 2013 survey results.

Figure 3: How Citizen's Keep up with City Issues and Activities

The City of Grants Pass maintains a website that provides information to the residents, which includes a calendar view of meetings and activities. Respondents were asked how often they viewed the City website, and the results are displayed in Figure 4. More than half (54 percent) of respondents do not ever look at the City website, but this is a 10 percent reduction from the 2013 results in which 64 percent of respondents reported they never look at the City website. Those who responded *Sometimes* and *Often* also report higher percentages than in 2013. Less than one percent (.07 percent) of respondents reported they regularly view the City’s website, but this rate is more than double the 2013 percentage (.03 percent).

Figure 4: Website Usage

A follow-on question was added to the 2015 survey that asked respondents that reported they used the City website, “Do you find it easy to use?”. More than half of respondents (58 percent) found the website difficult to use. These results, coupled with low website usage, indicate the City may benefit from having the website revamped.

Table 10 provides a summary of the types of responses from citizens of the City of Grants Pass, when asked “what is one thing you would like to change that would make living Grants Pass more enjoyable?”. Combining concerns about police/code enforcement with Safety/Reduce crime, a total of 24 percent of respondents noted these items as their chief items to change. City Management/Council/Planning was the second highest concern with 8 percent of respondents noting this as their highest concern. The City may benefit by combining some of the categories in Table 10 to provide a broader picture.

Out of a possible 409 respondents, 47 citizens noted they didn't have a response, and 38 citizens stated no changes were needed. In total, 510 responses were gathered because multiple people provided more than one suggestion about what they would change about living in Grants Pass. This information is best viewed in its entirety and is included in Appendix C.

Six-hundred sixty-five responses were collected to the question "What do you particularly enjoy about living Grants Pass?". Nearly two-thirds of the responses highlight the beauty of the area and the friendly communities found in the City. Only 8 participants chose not to answer this question, once again highlighting

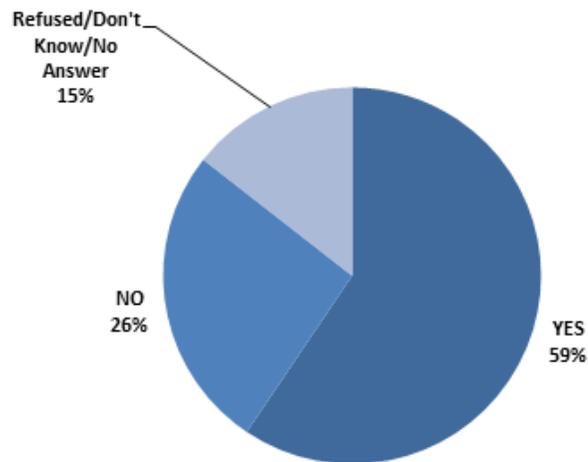

the fact that the citizens of the City of Grants Pass are overwhelmingly pleased with the City. A summary of the collected responses is presented in Table 11. The verbatim responses to this question are found in Appendix C.

In 2013, citizens were asked if the City should provide financial support to the Josephine County Jail, and secondly asking how the funds would be secured. For 2015, the wording in the questions was changed to ask if the Council should consider using City resources, if Josephine County is unable to provide adequate funding for the jail. Citizens favored the City funding the jail at about two times as those not agreeing the City should fund the jail. The results are presented in Figure 7.

Figure 7: If Josephine County is unable to provide adequate funding for the Jail, should the Council consider using your City resources to support the Jail?

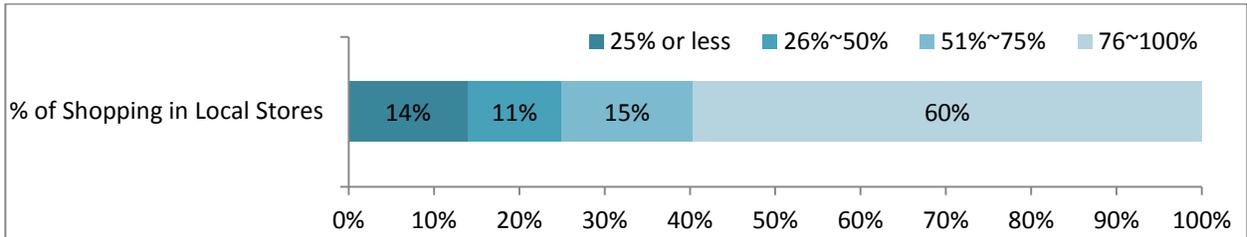

When asked how to fund this support, the largest percentage of respondents that provided an answer (17 percent) stated it could be funded through lotteries or other taxes. The next largest group of respondents (14 percent) was those who answered the jail could be funded by improving the budget or spending smarter. The verbatim responses to this question are provided in Appendix C. A summary of the responses may be found in Table 12.

As part of a series of special questions added to the survey for 2013, respondents were asked to provide information with regard to the location of where they do most of their shopping, which was followed up with asking what products/services they purchase in Grants Pass. For 2015, the question was modified to an open-ended question asking “What percentage of your shopping do you do in locally owned stores?”. The results of this question are presented in Figure 8. In 2013, 87 percent of respondents stated they did most of their shopping in Grants Pass.

Figure 8: What percentage of shopping do you do in locally owned stores?

A follow-on question to the shopping question was added this year and asked “What percentage of your shopping do you do on-lin?”. Figure 9 presents these results.

3.6 City Council Questions Added for 2015

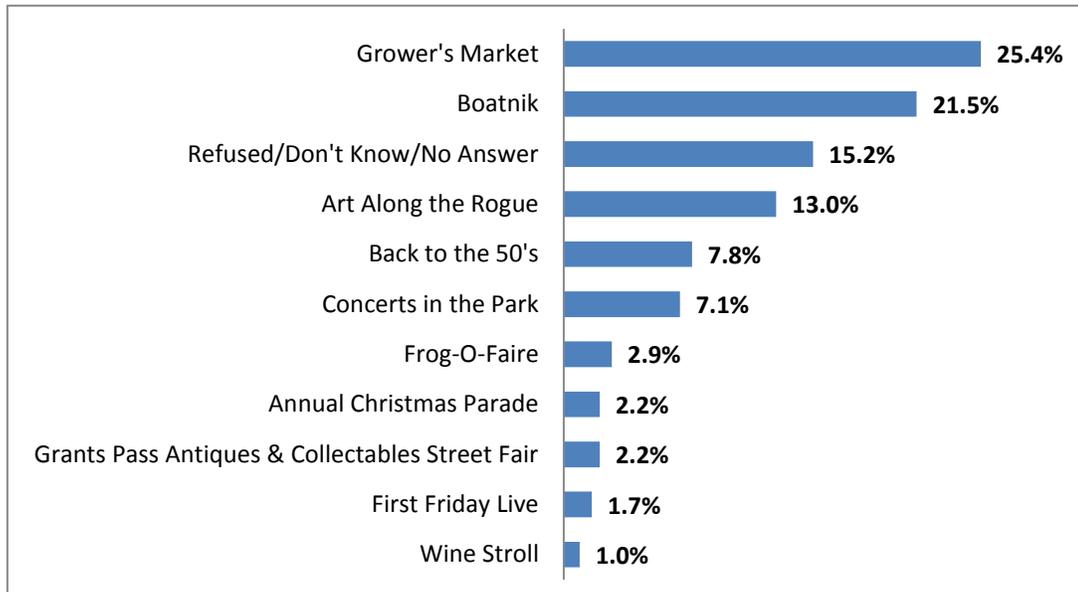

Three questions were added for this year’s Citizen Survey. The Questions were placed following the shopping questions, and just before the living in Grants Pass questions. Results of each of these questions are presented in Figure 10, Table 13 and Table 14. The transient population has been listed as a concern by respondents of both the 2013 and 2015 surveys.

Figure 10: Over the last year, do you consider the transient issue in Grants Pass to be better or worse?

When presented with a list of local activities, respondents were asked to select as many of these events as they had attended over the previous 12 months. The Grower’s Market showed as the most popular local event (25 percent) among the respondents who answered this question.

Table 13: In the past 12 months, which of the following list of local events have you attended?

Last in this group of questions was open-ended and asked “What is your highest concern for the City?”. As with the other open-ended questions in this survey, the full verbatim answers will be provided in Appendix C. A summary is provided in Table 14.

3.7 Demographics of Survey Respondents

When implementing a citizen survey, it is important to collect demographic data. Demographic profiles reveal the types of the population who have responded to the survey, and provide insight into the issues that are most important to all types of citizens.

Figure 11 presents a graph of the responses to the question of how many years the respondent has lived in the City of Grants Pass. The group who have lived in the City for 21 years or more showed the highest percentage with 52 percent. In comparison to the 2013 survey, a smaller percentage of respondents report living in the City for 5 years or less, while the residents of 6-10 years and 11-20 years remained unchanged.

Figure 11: Number of Years Living in Grants Pass

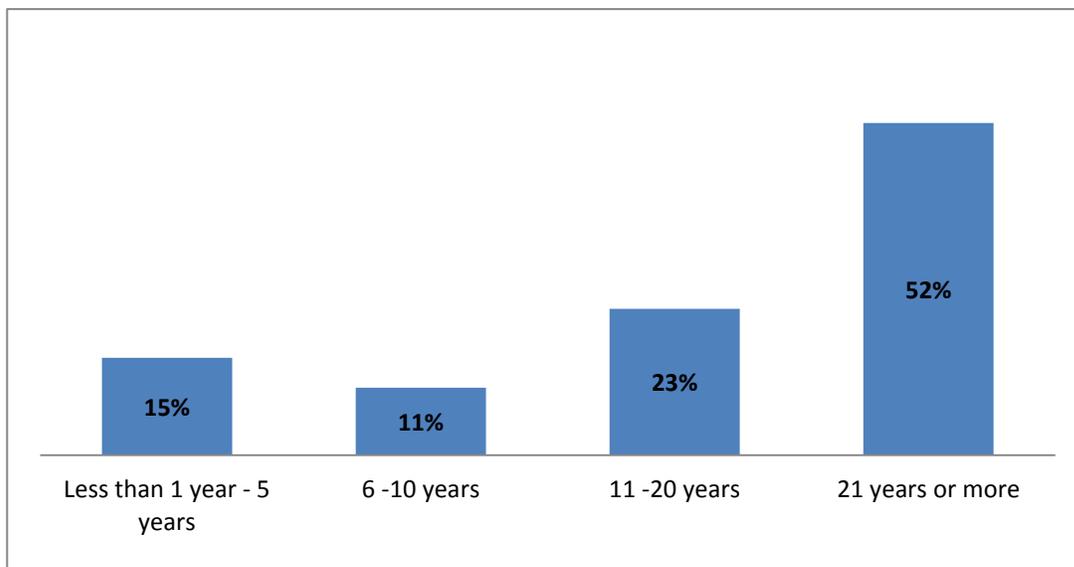

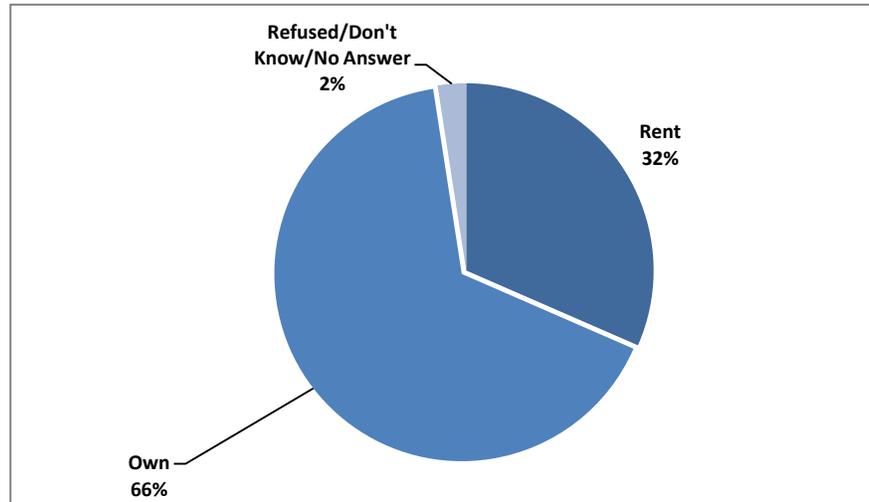

Figure 12 shows the percentage of respondents who either own or rent their principal residence. The respondents who reported owning their principal residence are in the majority with 66 percent. According to [statisticbrain.com](http://www.statisticbrain.com/percent-of-americans-who-own-their-home/)², this is in line with the average home ownership percentage of 67.4 percent in the United States.

When asked if they were registered to vote in the City of Grants Pass, 96 percent responded “Yes”, and 4 percent responded “No”. As discussed in the Introduction section, the majority (87 percent) of the sample records dialed were provided from voter registration lists. It is not surprising that the percentage of citizens responding “Yes” to this question was the higher percentage. Figure 13 presents the results from this question.

Figure 13: Registered Voter

The distribution of citizens residing in the North East, North West, South East and South West sections of the City of Grants Pass is reported as 19 percent of respondents residing in the North East, 21 percent of respondents reporting they reside in the North West, 19 percent of respondents reporting they reside in the South East, and 33 percent of respondents residing in the South West. This distribution is similar to that of the 2013 survey. Figure 14 displays the distribution of respondents’ residences.

Figure 14: Reside in Which Section of Grants Pass?

For the demographic of ethnicity, the first question asked if the respondent was of Hispanic origin. If the answer was “Yes”, the survey was concluded at that point. If the answer was “No”, the respondent was asked what their ethnicity is, followed by the conclusion of the survey. The responses are provided in Table 15.

3.8 Comparison of City Services and Programs

A number of comparisons have been performed, based on the favorable versus unfavorable ratings by respondents on Grants Pass as a place to live. Respondents who replied “Excellent” or “Good” to Grants Pass as a place to live were combined into one category called “Favorable”. Respondents who replied “Poor” or “Fair” were combined into one category called “Unfavorable”. In general, a lower percentage of respondents who fell into the “Unfavorable” group replied favorably to each question with regard to the services provided in the City. These results are displayed in Figure 15, Figure 16, Figure 17, Figure 18, and Figure 19.

5.0 Conclusions

This survey provided excellent insight into the Grants Pass citizens' perception of the City's performance in a variety of areas. With this survey being conducted only via telephone, it is important to note there is a segment of the population who do not own a telephone, or are cell phone only households. Cell phone sample was included in the dialing sample, however, NuStats has found cell phone owners are less likely to participate in a telephone survey. A larger sampling of targeted cell phone sample may result in more non-voters completing the survey. The recommendations from 2013 remain, along with a new one.

- Utilize an alternative way to include non-voters in the survey other than address-based sample, such as targeted cell sample
- Send introductory post cards to potential respondents, informing them of the upcoming survey and providing web information if they would like to complete on-line. This method will also ensure that only residents who live in the City limits are sent postcards, and will serve as an alternative way to reach unmatched, non-voter sampled households
- Add a web component to the survey, thereby capturing those who either do not have a telephone, or prefer to complete surveys on-line

Refusals, no answer, or don't know responses to questions constitute what is known as non-response items. Overall, the majority of respondents answered all or most of the questions in the survey. The items of highest non-response were: How would you suggest the City pay for this added service (jail support) in which 31 percent of respondents refused, gave no answer, or responded "don't know"; and Over the last year, do you consider the transient issue in Grants Pass to be better or worse?, to which 21 percent of respondents refused, gave no answer, or responded "don't know".

Appendix C: Open Ends Narrative

Parks Security
Too many drug addicts.
He does not know much about it
There is no police presence in the parks.
The nature of how our parks are, and the officials can only do so much.
a decline
There isn't enough.
Based on the caliber of people I see down there. `
because they don't keep litter clean up
Heard that many druggies and homeless are there.
There's no safety in Grants Pass because of all police cuts.
I don't see security there at all.
lack of officers
when they catch someone they let them go
I've called public safety to stop this beating and they showed up 3 times.
There are lots of transients living in the park. Graffiti. People with mental illness running around. Teenagers on meth.
I've been robbed and burglarized
Not obvious of what's going on. Not enough people to watch (security)
It's mostly political. They wanted more money to increase the force and jail beds and it didn't pass. They got to do something for the kids here. Treat addiction. They're bent on having it as a retirement town.
friends vehicles were stolen
Homeless, drugs not enough police patrol. I can't take my kids to the park anymore.
It's non-existent. I don't want to be in a park where police are present.
it's not safe not enough law enforcement
There is too much going on and there's a lot of drugs.
There is none, security never goes around the city parks.

Police Concerns
Don't know what they're doing
Issue with the amount of police not the particular actions of the officers. Just not enough police.
Don't have enough, and they're doing the best they can. I have had a non-emergency police concern and tried to phone the police and received an answering machine.
The police when they try to pass a levee, they drag their feet when there is a disturbance. They didn't have enough men available and slow to come to your aid. Excessive amount of police when it isn't necessary.
Because your 911 services suck. You want old people to use computers. You don't keep people in jail.

Police Concerns
There isn't any.
Because they're a bunch of gun guys they don't take of the problems they just cause the problems
I called the police, they should have come to see what the problem. It wasn't until my husband called only one officer came.
Poorly run
Seemed like they didn't believe what I said and didn't take me seriously. Think they should have investigated. They need to listen, the investigation is what is lacking.
Each officer is doing the best they can but they need more people on the force.
They do not follow up on anything, they just document the crime.
not enough police officers
Same reason as before.
Because they have liars.
We don't have enough police to answer call urgently. There shouldn't be that kind of wait for emergencies.
in the past, right now I don't know
They don't come when people call.
They got meth dealers in my neighborhood.
We never see any poilce.
They don't do theyre job right.
I rarely see a police car in this town.

Street Repair Maintenance
Using money for other things.
There are a lot of really rough spots. One at the corner of D and Beacon. Striping needs to be maintained better.
Because everywhere we go the roads are bad. You can't read the lines.
There is pot holes everywhere.
they don't maintain the streets.
There needs to be more infrastructure.
will not fix or cut bushes
Every time I've made a complaint it never gets done.
poor planning no follow thru.
racing on the streets in residential area

It tastes like chlorine, but I do appreciate having it.
I can taste the bleach all the time.

Leaf Service

I didn't know there was one.

They didn't pick mine or my neighbors leaves up this past fall.

They don't come out in the area where we live very often.

too early

Fire and Emergency Service

There isn't enough responders and they take a long time getting there on not getting there at all.

respond poor

There not available.

Code Enforcement

They only do it for certain people.

I don't think they know the codes anymore than i do.

Placing codes where they don't need to be. They don't even know what they are talking about or know the codes. Misinform the public, try and get people in trouble who are not going against the code.

They like to pick on people they need to pick on.

The city allowed business to move in. There are houses that need to be demolished.

Poorly run.

because they depend in citizens complain,

City trying to have an ordinance to block the marijuana planting issue.

They have there favorites, they don't treat everything the same.

Don't know

they don't do it

You see a lot of junky stuff, vehicles furniture and other things.

they don't do anything

they never got done what needed to be done

Theres buildings left unattended.

nobody takes care of things that need to be taken care of.

people that park on street with boats are not all allowed

I've had an issue lately and no one will help me.

no business owners, or well off people disconnected with reality

I don't believe in babying them. If they've done something wrong stick it to em

things do not get done

Rec Programs

more activities

inefficient

Dock parks are poorly maintain

We need more for the kids.

There's not a lot of activity.

They don't want you doing anything. They have special things for the elderly. More for the middle class and the elderly

they don't do anything, they don't work

they don't have very much for young children

Lack of funding, cause people are unwilling to support city infrastructure in general

not enough time put in into the children and seniors

they charge fees that shouldn't be charged

City's efforts to keep you informed

They don't publicize a lot of the issues. We don't get the paper.
They don't care what our citizens think.
not very public
I've never been notified on any city issues except when it's on the ballot.
They're like a secret society.
It doesn't matter what people say. There's a lot of things that go on that people don't know about.
Didn't know we had to defend our rights.
I think they could bring out some of the issues before they fix them.
The info that comes out of the city you find it out a year later.
don't normally tell you about issues until it happens
The fact that they do things before they get the people involved.
don't get info
Not part of the smart phones. No emergency broadcast.
They don't care about the people.
Because I don't get any information
I don't hear anything about it.

Grants Pass as a place to live

It's poorly taken care of, don't clean park and the riff raff. Cleaning all the bird crap. downtown is a joke, opportunity sucks. Corruption, people unemployed and on welfare. No opportunities for business.
There is a great divide with elderly community and poverty
We can't attract doctors and professional people. I was born and raised here.
too many criminals
There's not enough activities.
The community will not support the future of the community. The schools aren't supported. The library is not funded. The animal control is not supported.
They are turning Grants Pass into southern California.
Too many drugs. Someone had been murdered. There are break-ins all the time and it's usually someone on drugs.

One Thing you would Change

City management and change that and more availability for people to work and business without costing them millions.

I'd like for them to get rid of the retirement for council members. It's just wrong.
Everything pleases me and I'm old so I pass that. I would like to see a big mega church move in.

Really trying to keep the age group (16-35) to stick around the city.
No jail space, those kind of issues, they revolve around public safety.
Theyre gonna have to pay for police help. The jail should be able to incarcerate people who committed a crime.
too many people.
safety because marijuana usage
Everyone tries to take too much control. Take care of the safety of the city.
Over control, let the mayor loosen the reigns. Some kind of Hitler, they need to back off and let people have rights to their own property. Overregulation you can say.
Is not exclusive here to the city. What is being taught in schools. Example: my granddaughter came home and told her that her teacher spoke some anti-Christian comments. They shouldn't be allowed to question a students belief religiously.
The safety of police because of the lack of funding. The general public continues to vote these services down and we end up with no safety measures and our community has crime.
I don't really have any concerns, personally.
The drug use
Fix dthe website
have more activities for people to attend
adequate disaster relief
Water bill will be going up .

crime,theft
How they deal with the crime and transient issue.
Keeping people safe, there are people out there that target people. Use weapons against them, police should be up to date on what goes on. I was a target and went to the police and they did nothing about it. Strange things that they use on people, electro
Safety. Drugs.
Using common sense and looking at a budget that everybody in the county can afford.
It's difficult for a city to be in a county, where the county residents refuse to take care of business.
Jobs
prisons, jails need to be better manage, not making the city so attractive to hobos
that they spend the money wise
security and police that they need
Not really any concern, the ability to house prisoners the funding is the issue now.

The funding isn't keeping up with the returns, always on the short end.
Security.
Our safety
Safety issue, not enough policeman and jail beds. Embarrassingly inadequate, having to pull from other communities its ridiculous.
I'm concerned about the legalization of marijuana.
Traffic.
drugs
cops taking care of more important issues
I don't have an opinion about that.
