WORKING FOR THE CITY | We are a High Performance Organization that has well-defined Mission, Vision and Values which provides the framework for our organizational culture. We believe that the best solutions come from empowered teams with the knowledge and shared vision of the community's goals. We promote a legacy of excellence through a culture of trust, collaboration, and encouragement of personal growth and the celebration of our achievements. We seek to attract adaptable, creative and motivated individuals who share our community pride and dedication to exceptional public service.

POSITION SUMMARY | The Engineering Technician position must provide skilled judgment in furthering the interests of the City in the management of capital projects. The Engineering Technician is responsible for conducting field inspections to determine completion of work against specifications and standards. Technicians will also facilitate community meetings and pre-construction and pre-bid meetings, performing basic contract administration for construction projects including preparing of capital project budgets. Engineering Technicians must furnish efficient business administration and management services and perform in an expeditious and economical manner consistent with the interests of the City. Engineering Technicians will work alongside professional consultants and provide document and plan review to ensure proposed projects are in compliance with the City's adopted master plans and design standards.

MINIMUM JOB REQUIREMENTS | An Associate's Degree and two years of construction and/or public works field inspection and/or civil engineering design experience are required; or a Bachelor's Degree in Civil Engineering, Construction Management or a related field and one year of experience or an equivalent combination of education and experience sufficient to successfully perform the essential duties of the job.

LICENSING REQUIREMENTS | Oregon Driver's License – Class C
